PRESIDENT-ELECT HOOVER REACHES SOUTH AMERICA

CHANCE TO BE HERO IS SEEN BY ROGERS; HEAD OFF CONGRESS!

(Special To The News)

NEW YORK, Dec. 1.—Well, Mr. Coolidge went down south in old Virginia and spent Thanksgiving, but you notice he didn't get there till it had gone Republican.

He used to spend his Thanksgiving in Massachusetts, but not lately.

With all our boasted prosperity, I don't see that we are any better off. The old turkey hash showed up as usual today and will be with us the next few days, just the same as it did when we were poor.

Yours,

WILL.

P. S.—I am warning you now, that if something is not done to prevent it, congress is going to meet right away. So come on, good patriots, and help protect your country.

Hoover Making First Visit In South America

President-Elect Is Guest At Ceremonies In Ecuador During Day

OFFICIAL GREETING SCHEDULED TONIGHT

Hoover Is Gratified At Wonderful Reception Being Given On His Tour

By LAWRENCE SULLIVAN
International News Service Staff Correspondent

ABOARD U. S. S. MARYLAND, (Via Arlington, Va., Radio Station), Dec. 1.—President-elect Herbert Hoover reached Ecuador today for his first good-will visit in South America.

The Maryland arrived off the Gulf of Guayaquil before Daybreak and Mr. Hoover and his colleagues immediately prepared to board a ship of lighter draught to carry them up the Guayas river to Guayaquil, the capital of Ecuador.

A radiogram received on shipboard stated the U. S. cruiser Cleveland would meet the Maryland 70 miles off the mouth of the Guayas river early in the morning to take advantage of the high tide on the trip to the capital.

To Spend Night Ashore

The president-elect is expected to spend his first night ashore on Equadorean soil for the first time since leaving San Pedro, Calif.

There will be a state banquet at Guayaquil this evening for the distinguished visitor following ceremonies of official greeting when Mr. Hoover meets President Isidro Ayora of Ecuador and members of his cabinet. Mrs. Hoover, Henry P. Fletcher and

Hoppe Dies In Electric Chair For Killing Of Seven-Year-Old Girl

(International News Service)

COLUMBUS, O., Dec. 1.—Eyes closed and lips moving silently in prayer, Charles (Stanley) Hoppe, 27, confessed murderer of Dorothy Sielagowski, his 7-year-old cousin by marriage, expiated his crime in the death chair at Ohio state penitentiary here last night.

Hoppe entered the death chamber holding a large crucifix and with Rev. Fr. O'Brien, chaplain, whispering encouragingly to him. He showed but little sign of the hysterical near-collapse which had seized him earlier in the evening when his wife, giving vent to pent-up emotions, sobbed brokenly when she bade him the last goodbye.

His last words, as he sat in the anteroom waiting to be led to the plain, oaken-armed chair were, "I'm ready, let them come."

Hoppe was preceded to the chair by John Rucker, 47, Cincinnati negro, convicted murderer of Patrolman John Franken, who was slain during an attempted holdup July 4, 1927.

King George Has "Fair Night"; Word From Physicians

Slight Increase In Temperature Shown But There Is No Cause For Alarm

(International News Service)

LONDON, Dec. 1.—Although he passed a fair night, King George suffered a slight increase in temperature, it was officially announced at Buckingham Palace, London, today.

Deep anxiety still grips the British nation, mingled with admiration over the sturdy fight the monarch is making against his illness. This alarm is tempered by the assurances of medical men that recovery from such an attack of pleurisy as the king is suffering must necessarily be slow.

The Prince of Wales, heir to the throne, is still at Dar-Es-Salaam British East Africa, but expects to sail on the British Warship Enterprise tomorrow. He will not be accompanied by his younger brother, the Duke of Gloucester.

Prayers will be said in all the churches of the British Empire tomorrow for the speedy recovery of the king.

Thousands Of State Deer Hunters Seek To Bag Prize Today

Estimate About 100,000 Hunters Seek Does And Antlerless Deer Today

Season Will Close December 15; Several Court Actions Over Open Season

By CLYDE SHUE
International News Service Staff Correspondent

HARRISBURG, Dec. 1.—Approximately 100,000 hunters invaded the woodlands of Pennsylvania today as the first open season on does and antlerless deer was ushered in. The season will close December 15.

While deer may be killed legally in 50 counties, court injunctions in four other counties prevent hunters from using the special deer licenses that have been issued by the State Game commission. The counties where injunctions prohibit the slaying of deer are Monroe, Pike, Northampton and Wyoming.

Although sportsmen in Monroe and Pike counties have contended that the killing of does in that section was not necessary, the commission refused to submit to the demand that the open season for the state be withdrawn. Injunctions were then obtained by the sports men in the two counties, restraining the county treasurers from issuing licenses, and forcing hunters to abandon their plans.

Recently the commission issued an order, stopping the sale of about 20,000 licenses that remained unsold. This order affected hunters in 15 counties who had neglected to obtain the necessary special licenses when they were first put on sale.

License Sale Halted

Last minute efforts, however, in Northampton and Wyoming counties resulting in the issuing of injunctions yesterday in both counties against the killing of deer. These injunctions are not against the commission primarily, being directed mainly toward the individual hunters, many of whom had already established camps for the opening of the season today.

The season on bass, shorebirds, wild turkey, gray squirrels, ringneck pheasants, ruffed grouse and quail closed yesterday. Fishermen, however, may still angle for yellow perch, sun fish, rock fish, cat fish, suckers, chubb, fallfish and eels.

The bear season is still open and in addition to does and antlerless deer, elk may be shot. Elk are found only in a few northern counties. Rabbits, red squirrels, wild ducks and geese are also on the open list.

Eagles To Have Open Meeting

National Speaker To Present Work On Monday Night

New Castle Aerie No. 455, Fraternal Order of Eagles, is now in the midst of a determined drive to increase the membership of the local organization.

In order that non-members and their wives may have opportunity of understanding just what this fraternity stands for and what it is endeavoring to do, an open meeting has been arranged at the Eagles Home 43 South Jefferson street on Monday night, December 3 at 8 o'clock.

The sepaker is to be Thomas O'Donnell of Kansas City, Mo., a member of the national group of organizers of the Fraternal Order of Eagles.

He will tell of the organization founded and carried on, on the basis of "love and companionship of men." During the past year there have been 90,000 new members added to the order bringing the membership to 600,000.

He will show how the organization is a powerful force for mutual helpfulness, for good citizenship and what ideals it maintains.

First of all the organization is based on American citizenship and it is the leader in the movement for state pensions for the aged and dependent citizens. In keeping with this principle the organization has paid out $1,300,000 to dependents of every Eagle who gave his life in his country's service during the World War.

Ladies auxiliaries are now being organized as a part of the work of the order and they are proving a wonderful stimulant to the work of the order.

All will be welcome to attend the open meeting Monday evening and learn of the benefits being derived in this organization.

Gun Explodes; Man Is Killed

Roy Petrie, 60, Is Victim Of Hunting Accident This Afternoon

Roy Petrie, aged 60, was instantly killed this afternoon about 2:30 o'clock at the Albert Martin place, just beyond the New Castle airport on the Youngstown road, when the gun of his son-in-law, Albert Martin, exploded accidentally as they were in the act of going hunting. Mr. Petrie had been making his home recently at the Martin home.

Dedicate Organ At Temple Israel Friday Evening

Rabbi S. H. Goldenson Makes Chief Address At Impressive Service

DONOR OF ORGAN MAKES PRESENTATION

Rabbi Menkes And Marcus Feuchtwanger Respond For Congregation

Dedication on Friday evening at Temple Israel of the fine new philharmonic reed organ, presented by Alexander Cass Sunstein of Pittsburgh as a memorial to the late Abraham L. Rauh, will be an occasion long remembered, not only by the members of the congregation, but every one of the large group in attendance.

Adding to the beauty and interest of the evening service for Sabbath and also the dedicatory exercises was the participation in the services of members of the choir and organist of Temple Rodef Shalom of Pittsburgh

Dedication Occurs.

When the evening service for Sabbath had been brought to an end, the dedication of the organ took place. Following an organ number by Charles A. H. Pearson, organist and director of Temple Rodef Shalom choir, Pittsburgh, Alexander Cass Sunstein in a few well chosen words presented the organ to Temple Israel. He said in part: "It affords me great pleasure to present to Temple Israel this organ in memory of a man for whom I had the greatest respect. It is my hope that you will get as much pleasure in its use as I have had in presenting the same to you."

Rabbi Samuel H. Goldenson, Ph. D., of Temple Rodef Shalom, Pittsburgh, made the consecration address. Rabbi Goldenson took as his theme "Giving", using as the basis of his address the fine gift just made to Temple Israel.

Rabbi Speaks.

Among other things, Rabbi Goldenson said: "I am happy to be privileged to be here on this occasion and participate in these services. We are witnessing the giving of an organ to this house of worship. On such an occasion it seems fitting that there be reviewed for you 'The Various Types of Giving'.

"There are many forms of giving. There is the giving that is mechanical. This is the lowest form from the standpoint of giving. There are machines that make and fold things, then on the release of a lever the machines gives up those articles which it folded. It makes no difference to the machine what it makes and holds, no difference when it re-

Five Oil Workers Seriously Burned At Freedom, Pa.

Drenched With Boiling Oil, Five Workmen Sent To Rochester Hospital

TWO ARE FEARED FATALLY BURNED

Oil Overflows From Top Of Still; Workers On Platform Were In Path Of Oil

(International News Service)

ROCHESTER, Pa., Dec. 1.—Drenched with boiling oil, five men were seriously burned, two probably fatally at the plant of the Freedom Oil Works at Freedom today.

Humphrey Matthews, 43, of Rochester, ascending a ladder, when the oil overflowed from the top of a still, lost his footing and hung headdownward in the Cascade of oil.

Four on Platform

Four men, John Devore, 21, Albert Turley 24, of Rochester, Paul Merriman, 38 of Conway and Warren Kilgore, 50 of Freedom were on a platform 25 feet from the ground removing the head of the still.

After removing the bolts they tapped the head with hammers and the loosened head was lifted by the pressure of the oil from the narrow opening boiling oil was sprayed over them and they dropped to the platform. Then the oil flowed out in a steady stream, drenching them.

Merriman finally leaped and alighted in a pile or iron. Matthews was on the ladder ascending when the oil began falling on him. As he attempted to descend he lost his footing and one leg caught in the ladder and held him.

Matthews and Merriman were the most seriously burned and with Devore and Turley were taken to Rochester hospital.

Alleged Butler County Slayer To Face Grand Jury

J. Earl Jones, Former Garage Owner Alleged To Have Killed And Burned Wife

(International News Service)

BUTLER, Pa., Dec. 1.—J. Earl Jones, former Butler garage owner, charged with shooting his wife and burning her body in a deserted log cabin near here last October, will go to trial before the December grand jury which convenes here Monday.

Jones is alleged to have confessed the slaying and burning. Bones and jewelry, identified as those of Mrs. Jones were found in the ruins of the burned cabin and lead to Jones' arresent and alleged confession.

The grand jury will consider 56 cases.

New Rector To Assume Charge

Rev. George C. Grambs Accepts Call To Pastorate At St. Andrews

The Rev. George C. Grambs, assistant rector of St. Stevens Episcopal church of Washington, D. C. has accepted a call to the pastorate of St. Andrew's Episcopal church, East Long avenue, this city.

Rev. Grambs will assume his new charge at the services on Sunday by officiating at the Holy Communion at 8 a. m., and the evening song and service at 7:30 p. m.

The new rector will succeed the Rev. G. A. Golding who resigned his charge here in September to take a post graduate course in the General Theological seminary in New York City. Rev. Golding was in charge of the local parish for a number of years.

Rev. Grambs is a young man having only been ordained two years ago. He will also have charge of St. Luke's Episcopal church at Ellwood City. Both parishes are very fortunate of being able to secure such an able and talented minister to be in charge of the work.

DAN CUPID TRIUMPHS AT LAST

Reported engaged from time to time during the past year, Miss Florence Trumbull, daughter of Connecticut's governor, has finally announced her engagement formally to John Coolidge, son of President and Mrs. Coolidge. The wedding is scheduled to take place at Plainville, Conn., next summer. Florence and John are shown above.

Society And Nobility Gather This Afternoon At Heiress' Wedding

Miss Estelle Manville To Become Bride Of Count Bernadotte This Afternoon

Bride Is Heiress To One Of Greatest Fortunes In United States

By FLORENCE Y. WILSON
International News Service Special Correspondent

PLEASANTVILLE, N. Y., Dec. 1.—Leaders of America's "400" and representatives of the Swedish nobility will gather here this afternoon at St. John's church for the wedding of Miss Estelle Romaine Manville, daughter of Mr. and Mrs. H. Edward Manville, to Count Folke Bernadotte of Wisborg, second son of Prince Oscar Bernadotte and a nephew of the King of Sweden.

The marriage will be one of the most brilliant events of the social season.

To Carry Off Heiress

Count Bernadotte is carrying off to Stockholm, Sweden, the potential heiress to one of the most impressive fortunes in America—the bride's father being the "asbestos king". And the attractive bride-to-be is becoming the niece-in-law to the King of Sweden and a cousin-in-law to the crown princess of Belgium.

St. John's church will be crowded to its capacity at four o'clock this afternoon when the bride and groom march to the altar. It was necessary to restrict the number of invitations that were issued.

The wedding will cost a large fortune. The church has been specially decorated for the occasion and a great reception to follow the ceremony will be held in the Manville estate at Pleasantville.

Estimates put the cost of the wedding at more than $750,000. The bride's gown will in itself cost a small fortune. Wedding gifts to be showered upon the couple probably will cost several million dollars.

Many Reporters Present

The wedding will be one of the "best reported" events that has ever taken place in society circles. A special car for newspaper men and women was placed at the disposal of the press by the Manville family. Special telegraph wires have been installed within easy access to the church. Special invitations have been given to society editors and special writers.

From a news standpoint even Faith Rockefeller's debut bow at Sherry's tonight must play a secondary part to this event at Pleasantville.

The international character of the wedding here will not only be emphasized by the assemblage and by the

Find Body Of Negro In Car

Lawrence County Officers Scout Idea That Killing Occurred Here

BELIEVE VICTIM IS CLEVELAND MAN

(International News Service)

SHARON, Pa., Dec. 1.—A negro, believed to be Fred Hill of Cleveland, was found murdered in a freight car on the Erie railroad here today.

A large gash in the man's head indicated he had been struck down by a blunt instrument, railroad detectives said.

It was believed that the man was probably killed and placed on the train. The freight was delayed four hours by signal delay, at the Harbor, near New Castle.

County Detective William Fleming, State Policeman Munsee and Highway Patrolman Davis went to Sharon last night and viewed the remains of a man said to be Fred Hill, colored, Cleveland, whose body was found in a box car. The officers do not believe the negro was killed in this county.

According to their investigation Hill had been dead approximately three and one-half hours. The train operated at a rate of about 10 miles an hour owing to a broken air line between the Harbor and Sharon, but they say he could have been killed anyplace enroute.

They report never having seen Hill in this vicinity. The body is at McGrath's morgue, Sharon.

DRIVER HELD IN CROSSING ACCIDENT

BRIDGEPORT, O., Dec. 1.—Clyde Malin, 48, died 15 minutes after being struck by an auto at a street intersection. Walter Seevers, 25, released on his own recognizance, driver of the car, said he was blinded by lights of another car and failed to see Malin.

New Castle Men Held Up Several Hours By Wreck

Committee To Invite Legion Convention Is Delayed Near Harrisburg

REACH PHILADELPHIA DURING AFTERNOON

Believe Meeting Will Be Prolonged Pending Their Arrival

New Castle's committee, which left last night for Philadelphia to issue this city's invitation to the executive committee of the Pennsylvania State Legion to have the convention in New Castle in 1929, did not reach Philadelphia this morning.

Due to a freight wreck 20 miles west of Harrisburg their train was held up for four or five hours, and the delegation would not get into Philadelphia until early afternoon.

Bart Richards, a member of The News staff, chanced to be on the same train, en route to Philadelphia and wired this morning of the difficulties confronting the New Castle committee. His message said:

Resume Trip at 10:15

IROQUIS, Pa., Dec. 1.—At 9:30 this morning it looked as though the committee of the Perry S. Gaston Post, American Legion, might get to Philadelphia some time this afternoon. A bad freight wreck 18 miles west of Harrisburg tied up traffic both ways, piled 22 freight cars up like jackstraws and had such trains as Broadway Red Arrow and Liberty held up. One track was finally cleared and the New Castle men got started at 10:15, with Philadelphia 120 miles away.

While the meeting to hear the invitations for the 1929 convention was set for this morning, it is presumed that it would be held off long enough for the New Castle men to get a chance to put in their invitation this afternoon. New Castle was one of the two chief contenders for the convention. In the committee are Phil G. Greer, James W. Cole, Pat J. Dempsey, Harry Long and Major Guy Wadlinger.

Weather Outlook For Coming Week

CHICAGO, Dec. 1.—Weather outlook for the period of Dec. 3, to Dec. 8, 1928.

For the region of the Great Lakes rather frequent precipitation; temperatures below normal first of week and probably rising within latter half.

FALSE ALARM

A still alarm sent in by Patrolman George Kennedy as he was pacing his beat at 1:15 this morning, called Fire Chief Charles H. Lynn to a vacant store room at 207 East Washington street, owned by William Dunn, where the officer thought he saw signs of fire. However, investigation proved that the alarm was false.

Arthur Mometer

I'd like to write of a balmy day, and a blue sky dotted with clouds. I'd like to sing of a day in June, or of golf or of baseball crowds, oh I'd pen me a lay of a morn in May, or the view from an orchard hill, but gosh all fish hooks it wouldn't sound good, when the weather is so darn chill. When I sing of June, then I think of clothes that weight say a pound or less, but try and go out on a day like this, in such clothes and you'll be a mess. So the lay must wait for a summer day, and the ode to the orchard too, for it's chilly I wot, and it ought to be hot, for such lays, weather's forty-two.

tenth ward, and explaining the death of Hickman and how it happened that he was not executed until late in the afternoon, they became quite efficient. Lately it was no trick at all to answer two phones at once.

A country man was up in New Brunswick several years ago and with a number of others in his party of Canadian friends stepped into a camp meeting which was attracting much attention. The itinerant evangelist, billed from New York, was expounding the evils of our own dear hamlet, New Castle, and told what a den of corruption and hole of sin that it was. Investigation proved that the man was a minister in one of the minor sects here in town. The gentleman is not in the city at present.

Men in the safety campaign are bound to make New Castle a safer place to drive. They do not blame it on the police, it is the fault of the motorist and pedestrian. Many motorists will watch a corner and if a policeman isn't nearby, they will make a break for the light. The men seem to think that a few plain clothes men would help to aid this sort of thing.

Christmas shopping will get under way tonight, with holiday season enthusiasm. New Castle stores are ready. The holiday stocks this year are exceptionally fine.

Within the next week or so another impetus will be given to the Christmas shopping business when $200,000 or so will be paid to Savings club depositors, the annual Christmas funds being sent out at that time.

Around the postoffice it begins to look as if the early mailing idea had taken hold well this year. The postoffice business seems to have increased greatly during the past week. Do your mailing at once. It will soon be too late to do it early.

Arrangements are under way for the Community Christmas tree on the public square. Also there will be awards for best decorated premises about the city this year. Recalling the wonderful exhibitions about the city last holiday season one can picture even a greater demonstration this holiday season.

Likewise various community centers about the city should arrange to have the district trees put up and trimmed for the holidays. These added much last year. There should be a special night designated for turning on the Christmas decorations so that all would be burning the same night. How about the Saturday night before Christmas?

And why not have some decorations downtown? Citizens about the city do well in putting up Christmas lights, evergreens, etc., but downtown New Castle seems to be far behind the procession. Let's have a little enthusiasm downtown.

Sons Of Veterans Plan Christmas Party

At the meeting of Oscar L. Jackson Camp No. 249, Sons of Union Veterans held last night, it was decided that the camp should stage its annual Christmas party on the evening of December 28.

It is planned to make this event one of the best ever held and it will be for the members, their families, civil war veterans, their wives or widows.

The committee in charge of the event consists of Charles Schetrom, H. K. Bell, Frank Hill, W. D. Park, C. M. Gillespie, W. H. Palmer, Herman Gilbert and George Foster.

leases them. Mechanical giving is the same. It makes no difference who receives the gift, nor does it make any difference to what use the gift is put. We will pass it by as one of the things that happen without pause even for thought.

Second Form of Giving.

"Then there is a second form of giving, which may be termed compensatory. It returns what you have given before. It is much more important than the first form of giving but does not reach the real effort in giving that may be desired.

"There is a third form of giving, that is important, and is what is known as reciprocant giving. It is that giving that looks forward into the future for a return gift. It is in fact an investment. In this kind of giving, the gift is an invitation to make a return gift.

"It is a social investment. It is a part of social life, and many indulge in it.

Then there is a fourth form of giving. It is the exemplification of the highest type of giving. It is where in the gift there goes something of the individual who gives it. The gift is a symbol of the giver. The Latins say of this type of giving 'Dedo', which means 'I give and of myself.' Such giving is dedicatory and consecratory. We make such a gift sacred by giving of ourselves. It is a spiritual giving and counts most in this world.

Highest Type of Giving.

"You have the last and highest type of giving in that made to Temple Israel by Mr. Sunstein. What advantage was it to him to make this gift? No gift is of the highest type unless it is without personal profit to the giver as is true in the gift of this organ by Mr. Sunstein.

"It was given in grateful memory of one whom he respected and revered. It was a mark of appreciation on his part of the life of a man whose life influenced his.

Gift Inspiring.

"Would not the Thanksgiving week just passed be less beautiful, if it was not for the grateful memory we have of our parents, the martyrs who lived before us and made it possible for us?

"Gratitude is the first virtue in which we instruct our children. If there was no gratitude in human being they would not be dependable. There would be no fellowship, no companionship, no friendship and no love.

"The gift is all the more inspiring when it is realized that the man in whose memory it was given has passed away. It is the inspiration of the virtue of a good man. It is the inspiration of a good life. There could be no better gift than this gift of music. It is the inspiration of spirit unto spirit."

Feuchtwanger Speaks.

M. A. Feuchtwanger, president of the Temple Israel congregation, told of the gift and the kindness of Rabbi Goldenscn and the choir and organist of Temple Rodef Shalom in coming for the dedication. He expressed the sincere appreciation of himself and the members of the congregation for the gift and also the assistance rendered by Rabbi Goldenson and his choir and organist.

Marcus Rauh of Pittsburgh, a brother of Abraham L. Rauh, in whose memory the organ was presented, then spoke feelingly of his appreciation of the honor conferred upon him and his family in this memorial to his brother. "We deeply appreciate this tribute to one we loved."

Rabbi J. B. Menkes was the last speaker of the dedicatory program, who said in part: "I would be remiss if I did not take this opportunity of expressing my own appreciation as well as that of the congregation for this most generous gift and also the kindness of Rabbi Goldenson and his choir and organist. It impresses me as a soul inspiring occasion." Rabbi Menkes gave a short inspirational address on giving, taking Jacob as the model of the person, who made the perfect gift, when he pledged to God what he would do in return for the things that God would do for him.

When benediction had been pronounced by Rabbi Menkes, the large throng adjourned to the assembly hall of Temple Israel, where light refreshments were served by the ladies of Temple Israel Sisterhood.

The affair was increased in significance last night by the presence of Edwin Rauh, only son of the late Abraham L. Rauh, in whose memory the organ was presented, who made the trip all the way from New York City to be present.

The dedication committee in charge of the very successful event consisted of J. F. Perelman, chairman; Mrs. E. Roman, Mrs. E. Kaplan, Mrs. William Cosel and Abe Levine.

HOOVER MAKING FIRST VISIT IN SOUTH AMERICA

(Continued From Page One)

other members of the Hoover party will be present at the state dinner.

The party will leave Guayaquil tomorrow afternoon for the Maryland and the warship will then continue its journey down the South American coast.

An elaborate program of entertainment was provided at Guayaquil for Mr. and Mrs. Hoover, including a sightseeing tour of the city and suburbs.

Fun is Superceded

The fun which pervaded the Maryland all day yesterday while the King Neptune ceremonies were in progress gave way today to the serious business of spreading amity and good will.

Mr. Hoover's address this evening—his first on South American soil was expected to convey the keynote of his general greetings to the South American Republics.

The president-elect is highly gratified over the extremely cordial tone of the messages he has received from the South American capitals he will visit and believes that he will return home leaving the ties of international friendship stronger than ever.

During his spare moments on shipboard Mr. Hoover has been reading books upon South American topics and is better versed to observe the problems of the southern republics than he was a fortnight ago. He has also held a number of consultations with Henry P. Fletcher who is an authority on Latin American affairs.

SOCIETY AND NOBILITY AT HEIRESS' WEDDING

music that will be played, but even by the bride's veil.

Miss Manville will wear as a feature of her wedding costume a veil of old Brussels lace which was inherited by Count Bernadotte from his grandmother, the late Queen Sophia of Sweden. It will fall from a coronet of silver and crystals, made by the Swedish court jeweler.

Prominent society debutantes will act as bridesmaids. Jack Strong, a small boy, and little Elizabeth Ashforth will be cushion bearers. Prince Gustavus Adolphus, eldest son of the crown prince of Sweden and heir-presumptive to the throne, a cousin of Count Bernadotte, will be the best man. The ushers will include members of the Swedish nobility.

International News Service was informed that the bride and groom do not contemplate a tour of the United States. The couple are going to a destination as yet unannounced. The Swedish royal party, however, plan a tour which will take them to Rochester, N. Y., Niagara Falls, Washington, D. C., and Chicago.

The wedding sets a precedent in that it will be the first time a member of any reigning dynasty will have been married on American soil.

Drunken Driver Of Automobile Gets Jail Term

Other Sentences Passed By Judge Hildebrand At Court This Morning

Joseph Graham, of the West Side, was sentenced to pay a fine of $200 and costs and to undergo imprisonment in the county jail for three months by Judge Hildebrand this morning, for driving an automobile while intoxicated. He will be paroled in thirty days upon the payment of fine and costs.

Other sentences passed were as follows:

Daniel Schilling, possessing liquor, fined $100 and costs. It was claimed that a jug of liquor was found in the schilling home. Mrs. Schilling attempted to destroy it by pouring it out on a bed. About a pint of the liquor was wrung out of the bed clothes.

Frank Wolanin for possessing liquor at a dance that was being given in Oakland for the benefit of a church, was fined $100 and costs.

Sam Erauso, for aggravated assault and battery, was paroled for two years upon the payment of $100 fine and costs. It was claimed that Erauso had stabbed his uncle, Sam Frigone with a pair of scissors during a quarrel. Frigone was in court with Erauso and did not want to prosecute the case.

J. L. Weaver for driving an automobile while under the influence of liquor, was sentenced to pay a fine of $200 and costs and to undergo imprisonment in the county jail for three months, petition for parole to be entertained at the end of thirty days if fine and costs are paid.

Howard Baer, for possessing liquor, was fined $100 and costs.

Bartender Shoots Chicago Detective

Officer Is Shot Down In Soft Drink Parlor In Chicago

(International News Service)

CHICAGO, Dec. 1.—Thomas Geary of the Chicago detective bureau, was shot and instantly killed in a soft drink parlor here today. Henry Mullarkey, bartender, was arrested as the slayer.

In the place at the time were Geary, Edward Johnson of the Sheffield avenue police station and Mullarkey. The latter was sitting at the end of the bar, when he suddenly jerked Johnson's pistol from its holster and shot Geary, Johnson charges.

Detective Thomas Hayes was just entering the place, which is owned by State Representative Laurance O'Brien, when the shooting occurred. Mullarkey ran out the rear door and Hayes and Johnson overhauled and disarmed him.

Mullarkey was taken to detective headquarters.

Officials Aroused, Air Mail Is Robbed

Authorities On Both Sides Of Mississippi Hunt For Air Mail Thugs

(International News Service)

ST. LOUIS, Mo., Dec. 1.—Authorities on both sides of the Missisippi river today sought two bandits who late yesterday robbed the Chicago-bound air mail of five pouches, believed to have contained $1,000,000 in drafts and other securities.

It was the first air mail robbery in this section of the country.

The pouches were seized before they were loaded into the plane waiting at Lambert field here. The cargo was being transferred to the field from the downtown postoffice via auto truck. Harry C. Graham, driver of the truck, had no guards with him.

Postmaster A. J. Michener declared today the bulk of the loot was non-negotiable.

Capitol To Entertain Ne-Ca-Hi Grid Heroes

Besides managing the Capitol Theatre, which he does right well as the people of New Castle will testify, Charles Freeman is a rabid football fan. Perhaps it's the action of the motion picture games that keep him interested in the New Castle High school team but whatever it is Charley likes his football regularly.

On Thanksgiving Day he had a cameraman come from Pittsburgh to film the New Castle-South High game, and on Monday night he will have as his guests in the Capitol Theatre, Principal Frank L. Orth, Coach Phil Bridenbaugh, Faculty Manager Ralph Gardner, and all the football squad. Fifty seats have been set aside as a courtesy to the team and the boys can see for themselves just how they did it.

The pictures will be shown all week and every football fan in New Castle will want to live over again those spectacular touchdowns made by New Castle. In addition, Jean Hersholt, George Lewis and Marian Nixon will be seen in "Jazz Mad", four big acts of vaudeville will be shown, this for Monday, Tuesday and Wednesday.

Monday night is Diamond Ring night and some lady will win a handsome ring free. Tuesday night is Discovery Night.

Personal Mention

Joseph Walters of Cunningham avenue, is seriously ill at his home.

THE ROMANCE OF JOHN COOLIDGE

"GOVERNOR and Mrs. John H. Trumbull announce the engagement of their eldest daughter, Florence, to John Coolidge, son of President and Mrs. Calvin Coolidge."

That is a formal way of putting it, but back of the announcement it will not be difficult to discover a typical American romance, with the son of the President of the United States and the daughter of the Governor of Connecticut as the principals. If we wished to view it in the European fashion, we might regard it as the union of two reigning houses. But here all men are equal and those who rule us are subject to change by the will and the whim of the people.

But all the world loves a lover, and the good wishes of the multitude will go to this young man and this young woman with particular heartiness. There is something wholesome about the affair that appeals to the best there is in us. Most of the people are incurably romantic and they would have been delighted if this had proved to be another "White House wedding." But the son seems to have inherited much of the hard common sense of his distinguished father, and as a consequence there will be the sort of ceremony which befits their station in life.

It is not easy to play successfully the part of the son of an eminent father, but John Coolidge has carried himself with such modesty and manliness that everybody will wish him well in the great adventure he is to undertake.

FOOTBALL REACTION

AFTER losing all its major football games Yale is giving serious thought to what may lie behind this athletic slump. The opinion is expressed by the Yale Daily News and by the Alumni Weekly alike that social activities of one kind and another have commanded too much attention from the players. And the fraternities taking the situation to heart have been conferring to see what can be done about it.

The fact that only 500 undergraduates appeared at the rally preceding the Harvard game has been the subject of much comment. Former Coach Tad Jones speaking at the rally said that many of the missing 4,500 probably were attending dances and teas at the fraternity houses, when according to established custom they should have been out cheering for the team.

This is not the first evidence of loss of interest in football by the non-playing undergraduates says the Ohio State Journal. President Hopkins of Dartmouth was quoted recently as saying that it was not uncommon now for some undergraduates at that institution to play golf on Saturday afternoons when football games were in progress and that such disregard for football not so many years ago would have been little short of treason. Pointing in more or less the same direction is the disinclination of rooting sections to cheer as of old, and yell themselves hoarse for a cause that is lost early in the first half.

If there is a definite change in the attitude of college students toward football, it will probably prove the answer to the problem of overemphasis on this sport that has been so much discussed in the last few years. The wide public interest in the game which some university executives have concerned themselves about shows no similar decline. But with the commercial aspect of the game receiving more and more attention, it is unlikely that the public will be invited to stay away from major football attractions. Stadiums seating 80,000 people were not constructed with the idea of limiting attendance at intercollegiate games to students and alumni.

TRIUMPH OF THE GOOD-WILL TOUR

"THE visit of Mr. Hoover is worth twenty legations. It is worth years of diplomacy." Thus spoke Foreign Minister Quesada of Costa Rica after the visit of the President-elect to his country and the capital of San Jose.

It is the truth. The good-will tour already has had an immense and beneficial effect in Pan-American relations and in world appreciation of the facts concerning the ties that bind the republics of North and South America.

In Honduras at the luncheon given in Mr. Hoover's honor the political combatants entered into a gracious pact to respect the rule of the majority as expressed in the first peaceful election in that country in a generation. President-elect Colindres, on the other hand, promised to give the minority party two seats in his cabinet. The second love feast of former political enemies in Nicaragua has aroused world-wide amazement.

Now the Central American visits have been completed with the reception in Costa Rica and the Hoover party steams southward on the Maryland to call on our remoter neighbors of the Southern Continent.

Don't exercise on a full stomach. If you must exercise, do it standing.

A man isn't old until he begins to lie when telling how strong he was at thirty.

An apple caused a man's first downfall, but peaches have handled the business since that time.

Which are smarter, girls or boys? Well, which are more successful at dodging work through life?

We knew it would happen. Now nobody can think up a new dance naughty enough to be popular.

6,000,000 Are Blind.
Happy Are the Banks.
The Nature of Woman.
War, Famine, Stocks, Etc.

By ARTHUR G. BRISBANE
(Copyright, 1928, by N. Y. American, Inc.)

The American Federation of Labor, ably led by President Greene, will join the National Society for the Prevention of Blindness in a national campaign of prevention.

There are in the world at least 6,000,000 totally blind. To know how great is the affliction, stop reading for a moment, close your eyes, and ask yourself what life would be worth, if you could never open them.

Ignorance increases blindness, and disease born of vice, and superstition, increases it. In Egypt, today, you may see infants with flies attacking their eyes, the mothers afraid to hurt the flies, because it is a sin. Your grandmother's spirit might live in one of the flies. That superstition alone has caused thousands of Egyptian children to lose their sight.

National City Bank stock went up $400 a share last week, rising $100 in one day. The Hanover National Bank prepares to give stockholders a stock dividend of 100 per cent. Mr. Baker's First National Bank pays 100 per cent cash dividend. All three in New York City.

The real Thanksgiving period for bank stock owners is not surprising. Borrowers pay from 7 to 9 per cent interest. One day's dealings, in these 5,000,000 share days, amounts to $6,000,000,000.

Seven per cent on that would amount to $420,000,000 in a year. And call money interest is only part of banking profits.

At present interest rates, with a little time, the banks would have all the money.

Who can explain the nature of woman, or the terrible intensity of jealousy? The Bible and Shakespeare tried, but it cannot be done. Robert E. Evans, Denver policeman, was in love with Faric King, trained nurse, told her so, then married someone else.

She waited five years, and when he was brought to the hospital, wounded in a fight with bootleggers, she killed him, as he lay sleeping, in the early morning, and shot herself.

Her farewell note said "You belong to me. I have waited five years for this chance and it came." She asked that she might be buried near him.

Explain all that if you can. If she recovers, as she may, will a jury convict her or say with the Bible that jealousy hath a most vehement flame, and was too much for her?

Lord Cecil advocates "absolute equality in tons and guns, in the navies of Britain and the United States."

This is quite a concession by the British. They find that word "equality" unpalatable.

Why not stick to the plan originated by Britain, in the old "we've got the men, we've got the ships, we've got the money, too."

With men, ships and money, Britain ruled the waves and ruled the roost.

It's not convenient for Britain to spend the money at present. But is that any reason why we should not spend it? Britain did not consult us about her navy or its size, in the good old days. She simply went ahead. And she had the right idea.

France announces that her standing army will be reduced to 598,000 men in 1930. Painleve, minister of war, says France must have a big army until war among the states of Europe becomes impossible, as is war, now, among the United States.

The size of the French army is the business of France, not ours. When and if the next war starts masses of armed men may be as useless as were battle fleets in the last war.

Certainly deadly gases would make it necessary for troops to operate under ground.

The economic loss in keeping more than half a million young men constantly idle in France, fed and clothed by the workers, and delayed in beginning life for themselves, is incalculable.

Marshal Feng Yu-Hsing, China's minister of war, says $20,000,000 will not begin to solve the famine problem. His four provinces alone need at least $48,000,000, only $1.50 a month each to feed the starving.

Hungry Chinese have ceased selling their children, because no one buys them. The children are abandoned on the roadside, whoever will may take them—or they starve.

OUR FLAG—

Is only the emblem of the ideals we hold sacred.
Is more disgraced by flying over injustice than over defeated troops.
Is a promise to the downtrodden and a challenge to the uplifted.
Guarantees to every man liberty, not license.
Guarantees only those liberties for any man which he will grant to every man.
Always looks more beautiful after we have been living under another flag.
Is but the sign of the character of the people.

Hints and Dints

Sun sets tonight 4:34. Sun rises tomorrow 7:06.

There are still some birds who have to have stimulants in order to enjoy a holiday. They can get along without turkey better than without old red eye and even today some are still shocked from the results of Thanksgiving.

Now the road is clear for Christmas and all that goes with it.

When a girl misses a session of her bridge club she knows who's being talked about.

It is always hard to either write enough or steal enough material for this column but this is more true after a holiday than at any other time during the year.

A good husband is one who keeps on being an old darling in spite of her incompetence, fat and selfishness.

Man's most insignificant moment is when he is wrapped around some woman's little finger. It's a pitiful sight.

THAT CANADIAN ALE

Nearly 750,000 American automobiles crossed the Canadian border in the last season and their occupants spent over $300,000,000. Most of the traffic went to Ontario and Quebec—wet.

Massachusetts man who is suing for damages because injuries in an automobile accident have deprived him of the ability to whistle may collect in material form, but it's a cinch he won't draw to himself much sympathy from a greatly harassed public.

Woman critis who thinks the present style of dress being worn by our young girls is "demoralizing the youth of the land" doesn't seem to realize that another way of looking at it is that familiarity breeds contempt. As the London bus conductor once observed, "legs don't give me any auricular febrillations," or words to that effect.

"EASY-TERMS"

Europeans visiting this country often express astonishment at the American practice of buying homes, automobiles, clothing, house furnishings, etc., on the installment plan. This "astonishment" is a little inconsistent when we consider their methods of repaying U. S. loans. However, this is beside the question. We came across an article the other day concerning an "easy-terms" gentleman and his diary which we believe well worth repeating here:

"January 4. Bought an automobile today. Very easy terms. Very fine car, with cigar lighter on dash. Ought to finish payment on this in 18 months.

"February 4. Paid installments due on car. Bought a radio set on easy terms. Fine set, and payments will be small and monthly.

"March 7. A little late with payment on the car this month, and will have to let the radio payment go over till April, as I bought a set of books and paid $11 down. Very fine books. Everybody should have this set of books.

"April 15. Borrowed $50 from the boss to meet payment on car. The radio man came to take away the set, but we put out the lights and weren't home. The chump hung around all evening, so I couldn't see to read the books.

"June 1. Borrowed $100 from Uncle George to pay the $50 I borrowed from the boss, and also to meet payment on the car. Got behind a little on the book payments, because I bought a piece of land in a new real estate development. This land ought to jump in value. Paid $50 down.

"August 15. Somehow I don't miss the radio set much. And you can get plenty of books from the public library. The thing that hurts is that Uncle George should be so mean. Of course I told him I'd pay back the $100 on August 1st; but you can't do the impossible, can you? Trying to arrange a character loan from the bank. If I can borrow $250, I can get square again and everything will go fine.

"August 16. Bank says I have no character. What a bunch of crooks!

"September 30. The garage man is holding the car for that labor bill. What right have they to hold the car? It doesn't belong to me.

"October 1. It wasn't any use. I had to let the car go. Anyway, I'd rather have that piece of land. They have given me a month's grace on that. Real estate people have more heart, after all.

"November 15. Well, they can have their old land. Good riddance. If I knew where to get $30 to meet the payment on the piano, I'd be all right. Bought a new automobile today, on the 'pay out of income' basis.

"November 16. Income stopped. Got the sack at the office. In looking for a job you've got to have a suit of clothes, so I bought one this afternoon. Five dollars down."—Thrift.

RADIO ORATORY

A few years ago it was predicted that the day of the public speaker was about over. The increase of printed matter, the popularity of motion pictures, music, and other entertainment seemed about to put oratory out of business. But now the radio has made public speaking a greater power than ever before. An audience of 250 is turned into an audience of 25,000 and sometimes of 250,000 or more. Even old Demosthenes might have had stage fright if he knew he was about to speak to a quarter of a million Greeks.

KNOWING ABOUT THINGS

The radio has vastly increased the opportunity of entertainment for hundreds of thousands. The best thing it has done, perhaps, is to make the rank and file of folks aware of political affairs and the significance of public questions. When even Daniel Webster or Henry Clay or the impressive Calhoun made a speech comparatively few heard them and the written report reached comparatively few more until long after the issue was no longer alive.

One wonders if the Civil War might have been averted by the radio.

Hoover Stabilizing Proposal Arouses Popular Imagination

More Details Awaited In Plan To Use Three Billion Dollar Fund For Public Works In Time Of Depression

Popular imagination is aroused by the plan of President-elect Hoover to provide a fund of three billion dollars to guard against hard times before they arrive, by use of the money in advancing public works. The proposal was made to the Conference of Governors through Governor Brewster of Maine, who spoke for Mr. Hoover.

"Nothing quite so millennial in character has been proposed by an American statesman in many a day," says the WASHINGTON STAR. "If it emanated from a less practical source it would almost sound visionary. It is in any event," continues The Star, "fabulous in conception and an auguary of the constructive note likely to distinguish the engineering administration which will take office on March 4 next."

"It should go very far in the right direction," thinks the ASHEVILLE TIMES, which states further: "The annual construction bill of the country is seven billions, and of this public authorities spend a billion and a half. Private business may confidently be expected to follow government leadership in such an enterprise because it is a matter of concern to the big bank account and the smallest pocketbook.***This is a field peculiarly suited to Mr. Hoover's talents and the country will await with great interest his advice and leadership for stabilized prosperity."

The CLEVELAND PLAIN DEALER also holds that "if in his tenure of office Herbert Hoover can find a means of leveling the peaks and valleys of industry and of keeping business generally on an even keel, he will perform an invaluable service."

"The very fact that Mr. Hoover intends to act to relieve any unemployment," in the opinion of the WORCESTER TELEGRAM, "is in itself a great step toward the prevention of unemployment in the first place, since it will tend to promote business confidence. Fear is always the enemy of business. Mr. Hoover proposes to do away with fear." The LONG BEACH PRESS-TELEGRAM believes that "it will be possible to outline a program of construction that not only will contribute indirectly to the prestige and assets of the United States but will be a direct benefit to labor and business during 'off' times. In fact there will be no 'off' times under such an arrangement."

"It is an ambitious program," observes the BOSTON TRANSCRIPT, "but Mr. Hoover has given evidence of the zeal and ability with which he will further it. His career in private and public life demonstrates that few men in the world are equally well fitted for such a task. It may be that there is none so well equipped. And if absolute stabilization of prosperity is still generally regarded as beyond the bounds of the probable, a long step toward it may be taken during Mr. Hoover's service as Chief Executive."

Certain reservations are made by the DETROIT FREE PRESS, with the statement: "The President-elect is a practical man of very large experience, who has no illusions about human nature and human capacity, and it is to be assumed that the plan he has authorized Governor Brewster to present to the nation is offered as a distant, ideal goal toward which to march rather than as a program which he believes can be worked out in entirety within any given time."

The economic problem is emphasized by the CLEVELAND NEWS, which summarizes the possible effect: "Any protestation against the hardships of unemployment seems a form of national defense well worth adopting. The Hoover plan not only promises the worker some security in his right to work, but also offers the taxpayer the economy possible in undertakings started at times when material and labor costs are not rendered abnormally high by active competition."

On the other hand the INDIANAPOLIS NEWS raises the question "whether the very existence of the reserve might not create fictitious, high price levels, regardless of what otherwise would be a normal operation of supply and demand."

"It seems only common sense," agrees the PITTSBURGH POST-GAZETTE, but that paper adds: "There is a big problem of organization and synchronization in it. However, the particular ability of Mr. Hoover in that line and the success of cooperation in the reduction of unemployment some years ago promise much for the plan."

A question which is raised by the BROOKLYN DAILY EAGLE is as to "how he proposes to create the three billion dollar building reserve 'on the lines of the Federal Reserve Bank.' The bank was established by Congress," continues that paper. "The national Legislature might take the lead by establishing a national building fund. Possibly President-elect Hoover will make some such recommendation in his first annual message. But until the project attains some such concrete form it will have little value."

"It is a sensible procedure," argues the BALTIMORE SUN, however, "because money, materials and labor are cheaper at such times. But it is important to keep a sense of proportion and not to look upon the scheme as a panacea for unemployment." The BELLINGHAM HERALD comments: "The great aim is to prevent 'cycles' or fluctuations in industry. Much headway toward the solution of the problem already has been made. The construction reserve plan is just one item in the main scheme. In fact, it is a secondary item, and its chief value is to insure confidence."

"The plan at first consideration may seem somewhat paternalistic," concludes the KALAMAZOO GAZETTE, "but it surely is no more so than many of the system already in force to guard the economic well being of the nation."

The World AND THE Mud Puddles

THE OPEN ROAD.

There are many famous Highways in California. "You ain't bin nowhere nor seen nuthin" unless you have traveled over some of them. There is one which no visitor of Southern California should miss.

There are many New Castle people who expect to go to Los Angeles this winter and I want to tell them of the slickest trip to be found in California.

You can do it in a day if you want to; but you could find entertainment if you took a month to it.

You go out the front door of Southern California and come in at the back—out through the Soledad; and in through the Cajon. You touch the breath and heart and pulse beats of the real old California.

You start out through San Fernando and up through the Newhall tunnel. I always get a kick out of this road. It is filled with trucks bringing produce to the city markets. At this time of the year, they are loaded with cotton from the big fields of Central California. Their loads tower so high they can just skin in under the tunnel. No one can help but see that one day, California is going to wrest cotton-cloth supremacy from the South—especially as we are so close to the great cotton markets of the Orient.

The road winds up through Mint Canyon. Bordering the road are turkey ranches and road houses in about equal confusion. I can't imagine how they all make a living. You pass road houses enough to feed the population of the civilized earth.

You will pass at least a hundred deserted houses, with the windows fallen out and the roofs caving in over sprawled-out walls like a drunken horse trying to brace his legs. Most of them were left by homesteaders. They built the dwelling required by the government, spent just the necessary time of residence; then skipped out, thumbing their noses at Uncle Sam. A pretty rotten return for great generosity.

The road from Mint Canyon suddenly spills out into Antelope Valley. Once it was an open cattle range, with little cow towns and vaqueros. In those days it was absolutely dependent upon the rains. A dry year meant dying stock, deserted farms and miserable want. This was all changed by the invention of the gasoline pump. It is blooming now into orchards with great desert wastes lying like a pool below them.

Turn off from the Valley at Palmdale, east to the wreck of the old Socialist colony of Llano, which is very interesting; then south over the gorgeous mountain road to the Los Angeles County Park. The view of the valley from here fairly takes your breath away. Never were there such heavenly colors.

Then east again until you tap the Lincoln Highway in the middle of Cajon Pass; then to San Bernardino and Los Angeles over the Foothill Boulevard.

The roads are wonderful; and you see more different kinds of California than could be found in other trips of weeks. The distance is a little more than 200 miles.

Don't miss this if you go West this winter.

FRIENDSHIPS

Action must have the plaudits of the throng
And skill demands approval from the crowd.
On stranger's praise man fattens and grows proud.
So to be cheered he needs but to be strong.
Yet none can stay a champion for long.
Giants to greater giants soon have bowed.
By the vast multitude no losses are allowed.
For victors only is its gift of song.
But he who wins the plaudits of the few,
Who keeps the trust of those who know him best,
Whose life is gentle, clean and kind and true,
Remains triumphant in the larger test.
No stronger man or hand more skilled shall take
Away from him the friendships he shall make.

THE BEGINNING OF WISDOM—The fear of the Lord is the beginning of wisdom: and the knowledge of the Holy is understanding.—Prov. 9:10.

PRAYER—O Lord, my only help art Thou; fill my heart with holy fear.

Dry Christmas Along Border

Launch Big Drive Against Rum Runners From Canada On Lakes

CLEVELAND, O., Dec. 1.—It looks like a tough Christmas for the border rum runner, bootlegger and his customers.

In fact the driest Yuletide season since the advent of prohibition looms as a result of simultaneous blasts aimed by the United States and Canada yesterday at liquor exports and graft and corruption among enforcement agents along the Canadian border.

As added woe for the liquor business and those who look forward to the liquor form of cheer over the holidays comes word from Washington that increased rum fighting forces are being mobilized in the Detroit area and that the American government is now seeking a revision of the 1924 anti-liquor treaty with Canada.

The first direct blow was struck at Detroit yesterday when eleven border patrol inspectors were arrested on charges of accepting bribes and conspiracy to aid in the smuggling of liquor into the United States.

At the same time the Ontario government issued orders to operators of 30 liquor export docks in the Windsor district to close up.

Only ten export docks will be allowed to operate and these will be under "strick supervision of customs officers," according to Andrew H. Dalziel, collector of costums at Windsor.

Meadville Pastor Assumes Pastorate At Tabernacle

Rev. Thomas J. Logan, D. D., Presbyterian minister of Meadville, Pa., has accepted the pastorate of the Pentecostal Tabernacle, South street, this city, and will assume his charge here Sunday, December 9.

Rev. Logan was expected to preach in the Tabernacle tomorrow, but on account of conducting evangelistic services at Fairmont, W. Va., will be unable to occupy the pulpit here.

The church has been without a pastor since the resignation of Rev. F. D. Drake in September. Rev. Drake is now located in Rochester, N. Y.

Rev. Logan is not a stranger in this city having preached in a number of local churches.

Actors Injured As Plane Topples During Rehearsal

Two Youthful Actors Injured Severely As Plane Crashes Onto Stage

(International News Service)

NEW YORK, Dec. 1.—Howard Allen, 19, and Mervin Williams 23, actors, injured at the Lyceum theatre last night when a "property" airplane in which they were swinging on wires crashed to the stage, were suffering from spinal fractures at Bellevue hospital today.

The accident occured at a rehearsal of the production "Tomorrow" which is scheduled to open next week. The actors were seated in the plane, which was swinging about 20 feet from the footlights. Suddenly the wires snapped and the plane crashed to the stage, narrowly missing several actors below.

Stage hands pulled Allen and Williams from the wreckage. The plane weighed 1,500 pounds.

Salesman Dies From Injuries

OIL CITY, Pa., Dec. 1.—William J. Grigg, 41, Buffalo, N. Y., salesman, injured last Monday when struck by an Erie freight train here, died in the Oil City hospital today.

MUSIC STARS FIND REAL ROMANCE

Culminating a musical romance which began at a studio gathering four years ago, news of the recent marriage of Nanette Guilford, one of the youngest stars of the Metropolitan Opera company, and Max Rosen, celebrated concert violinist, has leaked out. Both are of New York. Photo shows Miss Guilford and Rosen, in inset.

Week Of Services In College Town

Epworth League Arranges For Special Program At Methodist Church

(Special To The News)

NEW WILMINGTON, Pa., Dec. 1.—"Evangelism for Youth" will be the theme of a week of evening services to be held December 2 to 7 in the New Wilmington Methodist church. These services are under the auspices of the Epworth League which is carrying out its program for companionship week in this manner.

The Rev. Mr. Bloomquist, pastor, will open the series with a message Sunday morning. Ministers from nearby Methodist churches will speak during the week. On Tuesday evening, the Rev. W. S. Smeltzer of West Middlesex, will give an address. The Rev. W. A. Thornton, pastor of the Oakland avenue Methodist church of Sharon, will speak to the young people on Wednesday evening. Other speakers will be announced later.

Organizes Choirs.

Dr. H. L. Black, head of the department of mathematics at Westminster, is organizing two choirs in the college town Methodist church. One choir is composed entirely of male voices, the other is a junior choir. These groups will sing at alternate Sunday evening services.

"Safety First" Is Coulthard's Plea

Safety First Schedules Second Program Of P.-O. Transportation Head

"New Castle is ahead in the safety contest and is entering the third lap with two divisions opposing," said C. C. Coulthard, superintendent, P-O transportation department, today. "I wish to ask that the public cooperate with street car and bus operators and help us to maintain our safety record."

Coulthard said that all car and bus operators had been given plenty of time to make their schedules but orders had been issued that schedules would come second to safety.

"The holiday season is rushing in and the streets and cars will be crowded. There will be considerable auto traffic. Safety first should be the main thought of all at this time of year," he said.

Fugitive Is Held Here Under Bail

Attorneys Fail To Get Frank Horan Released On Habeas Corpus Writ

After a hearing on a writ of habeas corpus this morning Judge R. L. Hildebrand directed Frank Horan to give bond in the sum of $500 until such a time as he is wanted on requisition papers from Binghampton, N. Y., where he is wanted on a charge of non-support of his wife and children.

Horan was taken into custody by Deputy Sheriff William Reynolds on advices from Binghamton that he was wanted. An attempt to get him out was made on the grounds that he could only be picked up on a warrant from the governor. However Deputy Sheriff William Reynolds testified that he had made a charge against Horan, charging that he was a fugitive from justice, and it was upon this charge that the court held him. It is understood the requisition papers are being secured by the New York authorities. Horan gave bail.

legal to expose unwanted infants on the public square, to be taken by anybody, or eaten by stray dogs.

That disagreeable custom, according to Lecky, caused early Christians, ingeniously, and kind heartedly, to invent their theory about infants not baptized, going to hell, or a place like it. The mothers were afraid not to have children baptized, and after baptism, dared not expose them. Civilizing the human race has not been an easy job, and it's a process still unfinished.

Russia is enjoying a new war scare. Earnest communists believe that "capitalist nations" are in a conspiracy to destroy Russia, and Sovietism. Russia worries about increasing friendliness between Britain and Japan, suspecting a plot to "encircle" Russia.

Capitalism is too intelligent to plan Bolshevism's destruction. To attempt that would, temporarily, keep Communism alive. The remedy for Communism IS WEALTH.

Make Communism rich, and Communism will say "I had no idea there was so much money, so much comfort. I must revise my views."

"Monarchies are destroyed by poverty, republics (and Communism) by wealth."

Rich Socialists, as Victor Berger can tell you, can be counted on the fingers of one hand, and three of the five are rather queer.

Seats on New York's Stock Exchange continue climbing to fabulous prices, and should reach $1,000,000, if the boom lasts, with 5,000,000-share days plentiful.

Exchanges in other cities rise in value also.

A seat on the San Francisco curb exchange sold this week for $10,000 above the previous high price.

How far this boom will go, nobody knows. Actually increased earnings by industrial corporations make all guesses worthless. The curious thing is that several industrial stocks, paying no dividends at all, sell at the highest prices. The public evidently thinks it knows of something in the background.

Gov. Smith's native city did not desert him. He carried New York with 453,805 votes to spare, 1,167,906 for Smith, against 714,101 for Hoover. This seems to settle the suggestion that "Tammany knifed Smith" and proved Tammany efficiency.

In New York state at large, Herbert Hoover got more votes than any candidate in the state's history.

DRINKING

It was not a preacher but Sir Walter Scott who said that of all vices drinking was the most incompatible with greatness. And it is of course obvious that any habit which tends even slowly to undermine the body and the mind reduces at a terrific rate the likelihood of greatness or the winning of distinction in the world.

KEEPING COOL

"Keep cool and you command everybody." The moment a man loses his temper and his self control he puts himself at such a disadvantage that almost everybody who can hold his temper can beat him. It is true for the mind and the body. There is no substitute for poise in winning a battle or an argument.

Highland Scouts Meet At Caves

All Of Troop Committeemen At Meeting Of Highland Troop No. 18 Tuesday

In the "Highland Caves" on Tuesday evening the Highland Church Troop No. 18 of the Boy Scouts held a very interesting meeting with Scoutmaster Ralph F. Davis in charge. He was assisted by Junior Assistant Scoutmaster Howard Gates and Senior Patrol Leader Jack Stevenson.

All troop committeemen of the troop were present. The seven members are Chairman F. J. McFate, Mr. McGrath, Mr. Fehl, Mr. Boston, Mr. Wallace, Mr. Burkeholder and Mr. Schmidt.

Scout Executive J. Lee Calahan and Scout Alfred Howard were present.

The opening exercises were conducted by the Junior Assistant Scoutmaster. Bugler George Winters blew "Colors." Committeeman McGrath received the good turns while Committeeman Fehl made his bi-monthly inspection of troop dues and record book.

Scribe George Winters read the minutes of the previous meeting.

Two first aid contests were held between the patrols in preparation for the big first aid meet at the Carnegie auditorium March 1. The first contest was a tie between George Winters and Tom Parlett's patrols. In the second Bob Jameson's patrol was proclaimed the winner, George Winters was second and Dave Nesbitt was third. The awards to the patrol winning first place was 25 points; second place, 15 points and third place 10 points.

Two new members were added to the patrols. Bob Howe was added to Bill Bishop's patrol and Foster Blanning was added to Bob Jameson's patrol.

Committeeman McGrath was the principal speaker of the evening "The Men's Bible class is back of you boys heart and soul and will assist you in every way possible" was the text of his message. He gave a very inspiring talk which clearly showed that the Highland church Men's Bible class is behind the troop n everything attempted.

Committeeman T. C. Boston spoke to the boys on the condition of troop finances.

Scoutmaster Davis urged that more of the scouts visit the Shenango Valley hospital and cheer the patients.

At the winter camp period to be held in the Christmas vacation for five days we expect to see at least 15 scouts from the "Highland Caves."

Projects in making knot boards, mineral boards, bird houses and additional displays for the walls of the caves were assigned.

Further arrangements were made for the Troop Court of Honor on December 18. The Patrol leaders were instructed to find out how many parents expect to attend and make a report to the scoutmaster.

The scouts were divided into the "Buddy" system and each pair of buddies is competing against the other buddies to see how many boys they can bring to the meeting.

Following adjournment of the meeting the troop committee held a meeting in which they discussed and made plans for future troop activities.

At the next meeting which will be held at 7:30 next Tuesday evening four contests will be held. Each patrol leader will be allowed to select the one he wants.

Scribe—Jack Stevenson.

Salvation Army Kettles Are Out

Start Work Of Raising Funds For Christmas Baskets In This City

Salvation Army ring-a-ting-tings reverberated through the air in the downtown districts of New Castle this morning for the first time this Christmas season.

But two "Christmas kettles" were placed on Washington street today to receive money from generous pedestrians, but Army officials state that three will be set out in the business section on next Saturday.

Commencing next week the organization will also have one kettle in the Mahoningtown area, one on Long avenue and one in Ellwood City.

It is not likely that Salvation Army lassies will watch the kettles every day next week for the present plan doesn't call for the kettle drive to open until December 8. However, a preliminary effort is being made today.

Money that is dropped into the kettles will go to finance expenses incurred through the purchase of Christmas baskets for the needy, a custom which has been practiced by the Army for years. Winter relief work will also be financed by the money placed in the baskets.

Salvation Army attches request that those in need of Christmas baskets on that day turn their names and addresses into Army officers immediately.

In 1783, two Frenchmen, brothers, Stephen and Joseph Montgolfier, startled the world with the first balloon ascension—the first successful, man-carrying, lighter-than-air vehicle.

Mission Dinner For Children

City Mission Is All Ready For Host Of Guests At Five O'clock

The tables are decorated, the eats are ready and the children of the City Rescue Mission are eagerly awaiting 5 o'clock when the signal to begin their big Thanksgiving dinner will be given by officials who have so generously planned the feed for them.

Tables have been secured from the Y. M. C. A. and set in position and decorated in the main room of the mission. Here volunteers will serve the kiddies and endeavor to make it the happiest day of those children's lives. All of the eats, weiners, scalloped potatoes, rolls, cake, ice cream and other goodies, are ready to be served.

The weekly meeting of the Mission sewing class occurs from 2 to 4 o'clock this afternoon. Following this the boys and girls will march to the main room, where the dinner will be given.

T. J. Hinkson is acting as general chairman of the affair and W. H. Reck, as assistant. People outside the mission will officiate in the serving.

Extra Trucks Will Carry Holiday Mail

Plans Being Made To Take Care Of Christmas Rush At Post Office

Squad Of Extra Clerks And Carriers Also To Be Used For Time

Additional parcel post trucks and extra clerks and letter carriers will not likely be needed at the New Castle postoffice until around December 18 or 19. From that time on the present force will be be greatly supplemented with additional workers to handle the heavy Christmas mail.

It is said at the postoffice that about four extra parcel trucks are added to the usual number every Christmas and that this season appears to be no different than in previous years.

Likewise with the extra clerks and carriers. It is not thought that any additional men will be placed in service before December 18. The rush usually comes about that time and continues till about Christmas. Postal officials declare that a number of extra clerks and carriers have already been approved and will be ready to go to work when the rush condition arises.

The plan for the handling of the holiday mail this year is precisely the same as in those preceding with the exception of a few minor changes. A receiving booth for packages will be installed in the hall an attendant will be placed before the letter depositing chutes in the office to sort the letters as they come in and similar other matters will be attended to. Efficient service will be offered the mailing public during the rush period.

According to postoffice authorities the mail rush continues to some extent to New Year's day although the volume of matter handled is noticeably less than before Christmas. The extra help and additional trucks have usually completed their service by Christmas day.

Church Foundation Is Burned By Fire

Straw And Wooden Forms Are Burned At First United Presbyterian Church

High wind, blowing flames from jacks, which were being used to dry concrete at the site of the First United Presbyterian church at the intersection of Clenmore and Albert streets, were the cause of a fire which burned some wooden forms and straw surrounding the foundations of the new edifice Friday evening. The fire alarm was sounded at six o'clock.

No. 2 Fire department and the new Pirsch service truck from the Central Fire department answered the alarm. Immediately after they arrived at the scene, one 400 foot line of hose was run from the No. 2 fire engine, while a booster line was run from the new service truck. The fire was under control within a short time, although Fire Chief Charles H. Lynn, in a statement this morning, declared that it was only the quick work of the department that kept it from spreading.

The building operations at the site of the new First United Presbyterian church are being conducted by the J. Clyde Gilfillan, and were insured by him. The extent of the damage is not known.

Mrs. H. L. Lininger of Greenville, has returned to her home following a week's visit with her sister, Miss Clara Eberhart, of 111 Quest street.

Local Lutheran Sunday Schools Score High Percent

Excellent Showing Of Attendance For Year At Convention In Ellwood City

The annual convention of the Sunday School Association of the West Conference of the Pittsburgh Synod met in Trinity Lutheran church, Ellwood City, Friday, November 30.

Lutheran churches of this city including St. John's, St. Paul's, and Bethany of this city and Jerusalem church near Princeton were represented by the pastors, including Rev. F. E. Stough, Rev. A. M. Stump and Rev. Oscar Woods and fifteen delegates. Rev. Stough had charge of the evening devotional service and Rev. Stump appeared on the afternoon program.

Jerusalem church carried off the honors of having the highest percentage attendance of Sunday Schools with an enrollment of less than one hundred, scoring ninty percent attendance for the year.

St. Paul's church for the third consecutive year again had the highest percentage attendance in the class of three hundred and upwards, enrollment scoring seventy five percent. The second was Zelienople with seventy three percent, First church of Butler, sixty eight percent and the Grace church, Butler over sixty six percent.

Miss Anna Dietterle of St. Paul's church was reelected treasurer of the association for the third term and Rev. Stough of St. John's church was elected on the executive board.

The next convention will be held in Grace church, Rochester, Pa., in 1929.

Mrs. E. J. Fithian Dies Suddenly

Wife Of President Of Bessemer Gas Engine Company Dies At Grove City

(Special To The News)

GROVE CITY, Pa., Dec. 1.—Mrs. Esther Fithian, aged 42, wife of Dr. E. J. Fithian, president of the Bessemer Gas Engine Company of this city, died this morning at six o'clock in the West Penn hospital, Pittsburgh, following an operation on Tuesday, and from which she had shown a remarkable recovery, until the end came very suddenly and unexpectedly this morning. The death of Mrs. Fithian comes as a shock to a wide circle of friends.

Mrs. Fithian was the daughter of Mr. and Mrs. A. M. Shellito of Independence, Iowa, where she was born 42 years ago. Her mother died at her birth and she was raised by her grandparents, Mr. and Mrs. A. Kiplinger of Meadville.

It was from their home that she married her first husband, Rev. Owen Sibley. One son, Otis, of this marriage survives. He is a student at Boston Tech but was able to be at her bedside at the time of her death.

She married Dr. Fithian in March of 1916. One son, Edwin Jr., aged two years, survives of this marriage. She was a member of the Presbyterian church, in the affairs of which she took an exceptionally active part. She was also active in the civic affairs and in social circles, she was known as a charming hostess.

The body will be brought to the home here some time today. The funeral arrangements have not been completed.

Red Cross Roll Call Starts Today

Lawrence County Chapter Starts 12th Annual Roll Call This Morning

SET GOAL AT 1,500 MEMBERS

With their goal of 1,500 new members to be reached within one week's time, workers in the 12th annual roll call of the Lawrence county chapter of the American Red Cross today embarked on a county-wide canvass that is destined to fulfill their hopes.

This morning marked the formal beginning of the Red Cross membership effort that is to include all parts of this county with the exception of New Castle, Ellwood City and New Wilmington. The drive will continue through until Saturday, December 3.

County Roll Call Chairman Clarence A. Patterson, when interviewed this morning, said that all teams were waiting for the whistle to commence this morning. With but one exception all of the original subchairmen of the various districts had informed their workers of the start and were on hand to supervise the work. The one exception existed in Bessemer where Roy Wallis was forced to decline his position owing to the damaging fire at the Metropolitan Brick company plant there, over which he is superintendent. Another appointment was made immediately and the roll call there is proceeding in fine shape.

The roll call in Union, Shenango and North Beaver townships is being taken by the students of the high schools in those districts. Student teams of the Union high school, the Shenango township high school and Mr. Jackson school are conducting the drive in those townships, under the supervision of special student chairmen. They will canvass all homes in their respective sections with the idea of enrolling each one to the local chapter's 1929 membership roster.

In other districts the effort is being conducted similar to the way it is being done by the high school students. The only difference is that adults are doing the work.

Plan For State Convention Here

Annual Meeting Of American Home Watchmen Lodge To Convene In City December 12

Full details have been completed by Fort Eureka lodge, No. 45, American Home Watchmen of New Castle, for entertaining the annual state convention of the organization which will be an event in this city Wednesday, December 12.

The meeting will be held in the city building opening with the morning session at 10:30, and continue throughout the day. About 150 delegates and officers will attend and a number of visitors will also be present. Dr. E. Sandborn of Muncie, Pa., supreme ruler of the lodge will preside.

At 5:30 the local lodge will serve dinner to all visiting delegates and officers.

Outstanding features of the convention will be the election of state officers.

"Just a Step Ahead"

"Know God" Is Erickson's Text

Some 2,000 Persons Attend Evangelistic Services At Tabernacle Friday

Rev. C. H. Erickson Preaches On Real Way To Gain Reward Of Heaven

Not a new way to get to Heaven—just a reminder of the only way by which one may go and the way that most persons forget for a more glamorous route, was the main theme of the sermon entitled "To Know and To Obey," which was preached Friday evening at Everybody's tabernacle on South Mill street by Evangelist C. H. Erickson.

"Today there are many who believe that just being good and belonging perhaps to a church will get them to Heaven. Many a man believes that because he pays his bills, and because he does not beat his wife, and because he does not do this and that, or does this and that, will give him access to the gates of the desired beyond," stated the evangelist.

The way to get to Heaven is to know God and to have Him in your heart, stated the evangelist. "There are many beggars who will enter Heaven sooner than will the millionaire who belongs to a church and several powerful lodges. It is really knowing God and acknowledging Him openly that gives one the right and promise to Heaven's blessing.

Rev. Erickson likened God unto a celebrity. Many people have heard of the celebrity only by what they have heard or read about them. They do not really know them. That is the relation of many to God. They know only what they have read and been told. They have never felt God; they have never really known Him.

"One must first know God," stated the evangelist, "and then obey Him. Once man has learned God, he must abide by his teachings and do the things that have been set aside and given him to do in God's own kingdom."

"God will come back," stated Rev. Erickson. "It is promised in his word that this shall be the case and it will happen. However He will not come back and be persecuted. His arrival will be heralded and He shall be a glorious king to bless all of His subjects.

The evangelist closed his sermon with a special plea for all to get God into their hearts; to really know God and His teachings, and then to obey the word. "To know and to obey."

At the service which took place Friday evening, some 2,000 persons were in attendance. Special songs both vocal and instrumental were rendered by the colored singers. A special feature of the program was a vocal solo by Mrs. Erickson, wife of the evangelist and leader of the group singing at the meetings.

NEWSPAPER MAN STUFF

It must be sickening to know that you are so unpopular with your colleagues that they celebrate your being fired. Recently one of the lads on a New York newspaper had a row with his chief over the rewriting of a story, and after harsh arguments were swapped the reported was dismissed. The staff rejoiced over the bouncing, and lost little time chipping in money to buy the editor a watch, upon which was inscribed: "For the outstanding piece of journalism in 1928!"

PETER'S ADVENTURES in ANIMAL LAND

BY MRS. FLORENCE SMITH VINCENT

GREAT DANGER THREATENS THE DOVES

Dove, his head cocked upon one side, was staring upward and so interested in watching the incoming pigeons that he actually had not noticed the dreadful things that were happening on the branches about him.

Just at this particular moment there were no Humans right near the tree on which Peter and he were standing—the boy could hear them crashing about a little distance away, and he decided that if he warned Dove, together the two of them might make their escape before the Two-Legs returned. He nudged Dove with his elbow.

"What is it now-" grumbled his friend. "Can't you take my word for it? I told you when the rush is over the good times will begin. Be patient for just a little while longer, do."

"Well, if you want to be patient enough to stand here on this branch until you are knocked off I don't!" cried Peter, nudging Dove still harder.

"If you could possibly take your eyes from the skies long enough to look at the ground you would see something that would make your heart ache."

"What, for goodness sake?" asked Dove, in amazement, and then he looked beneath him and saw the bodies of many pigeons strewn on the ground. He gave a frightened coo.

"Who did that? What has happened to my brothers?" cried he. Before Peter could answer his questions he knew. Just at that moment the hoarse cries of the Two-Legs were heard. The Humans were coming back.

"The terror is upon us!" cried Dove, distractedly. "We are not going to feed in the beautiful woods in peace and plenty. The Two-Legs have discovered our coming and we, ourselves, are going to be decoured.

"It all comes back to me now. I remember everything! Thousands of us were destroyed last year and those

"WHO DID THAT TO MY BROTHERS"

of us who were left alive after the slaughter made up our minds never to come back to the River that is Green. But we forgot all about it this year when the food gave out. Oh! Oh! Oh! We shall all be picked clean; not even a feather shall we pigeons have left."

Trio Held For Murdering Aged Hermit In Home

Two Youths And Man Claim Hermit Killed To Break Witchcraft "Spell"

BODY FOUND IN CABIN BURNED

(International News Service)

YORK, Pa., Dec. 1.—The two youths and a man who are in the York county jail charged with murder in connection with the death of Nelson Rehmeyer, a hermit, today continued to assert that they killed Rehmeyer because he had "cast a spell" over them.

John Blymire, of this city, who also claims super-natural powers as a "pow-wow" doctor, concurred with the confessions of John Curry, 14, of York, and Wilbert Hess, 17, of near here, that Rehmeyer had been practicing "witchcraft" and that it had been necessary to slay him to "break the spell."

The trio had first intended to clip a lock of hair from the hermit's head and "bury it eight feet in the ground," but when Rehmeyer resisted them a free-for-all fight ensued in the home. Only after he was beaten into unconsciousness with sticks of kindling wood were they able to overpower him.

Body Is Burned

Then instead of clipping his hair, the trio bound him, saturated his clothing with oil from a lamp and touched a match to it. Rehmeyer burned to death.

Police said that the practice of "witchcraft" was common in this section, many of the inhabitants believing firmly in the power of certain persons to "behex" others, as they commonly say.

There are stories of many persons paying large sums of money to other "witch doctors" to break the "spells" that have been cast, and on several occasions farmers have been known to lose their property in attempting to have the spells broken. Police declared they are powerless to break up the secret practicing of the 'black art."

Florida Fliers Rescued At Sea

Trio Of Florida Fliers Forced Down In Sea Picked Up By Tanker

(International News Service)

CHESTER, Pa., Dec. 1.—A story of rescue at sea after giving up hope as their seaplane was battered by the waves and with darkness descending was unfolded by three Florida aviators today as the Norwegian Tanker Madrona docked at the Marcus Hook Quarantine station.

Out of Tampico, Mexico, bound for Philadelphia, the oil tanker picked up the three air pilots and their disabled seaplane, 30 miles off Jupiter Light, Florida, on the evening of November 26.

The rescued men, Charles M. Sellich, Clarence Suber and William Simpson, were forced down by engine trouble. The trio had frantically signalled for help for more than four hours as their plane was buffeted by the high seas before they were rescued. Several ships passed them unaware of their plight.

Aside from the staff of the Sharon office, under the control of the local management, members of the local roster and guests from various places will attend.

Houghton May Be Secretary Of State In Hoover Cabinet

Alanson B. Houghton Rents Capital Apartment Giving "Guessers" New Fuel

(International News Service)

WASHINGTON, Dec. 1.—Reports that Alanson B. Houghton, ambassador to Great Britain, is negotiating for a sumptuous apartment here after March 4, revived reports today that he is to enter the Hoover cabinet, probably as Secretary of State.

Houghton's name has figured prominently in cabinet speculation ever since his defeat for the senate in the November election.

According to reports, he has about concluded arrangements to rent a 22-room apartment in the same building in which Secretary of the Treasury Mellon has made his home during his stay here.

Accident Victims Showing Recovery

(International News Service)

INDIANA, Pa., Dec. 1—Kelsie Wadding, 39, and Laird Wadding, 15, father and brother of one of the two persons killed in an auto accident on the Saltsburg road yesterday, showed improvement today in Indiana hospital, where they are being treated.

Mrs. Elizabeth Connor and her daughter, Mrs. Edna Wadding, sustained shock and bruises in the accident, in which Paul Connor and Maurice Wadding were killed. Their condition is good.

Hospital attaches indicated that it will be 24 hours before the extent of the internal injuries suffered by Wadding and his son is fully established. Both patients spent a fairly comfortable night.

Connor and Maurice, his nephew, were dead when they were taken from the wreckage of their overturned car.

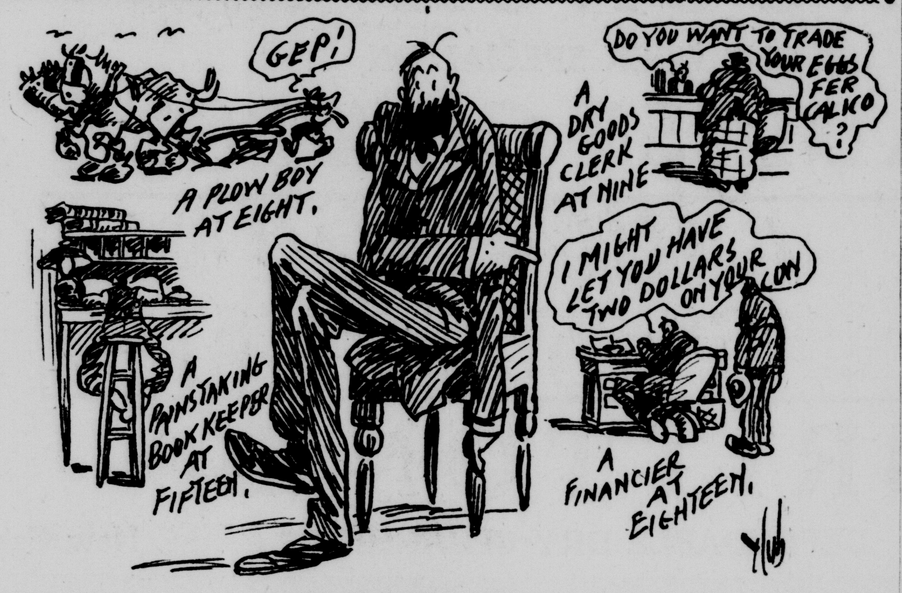
The Wright brothers, Orville and Wilbur, of Dayton, Ohio, were the first to fly successfully by means of power. On December 17, 1903, Wilbur Wright flew about 800 feet, at an altitude of about 12 feet, in a biplane, of the sand dunes of Kittyhawk, N. C. Modern aviation properly begins here.

ABE MARTIN On Success



MRS EM HANGER'S UNCLE.

Some publications seem t' have a mania fer printin' th' life stories o' men who have become financially great, fellers who have weathered all th' hard knocks an' vicissitudes known to human existence fellers who gained th' top through almost unbelievable frugality an' finally lived t' see th' day when they pulled down salaries amountin' t' all th' way from five hundred thousan' t' ten hundred thousan' dollars a year. I saw a picture o' one highly successful financial wizard th' other day an' he looked like he'd jest refused t' give $5 t' th' Floridy sufferers. I've seen fer better chins on umbreller menders while his head looked like he could wear any sibe helmet. He wore a haunted look like he wuz expectin' t' be nabbed any instant fer housebreakin' at Hurley, Wisconsin. Yit he's th' second highest salaried man in th' world. I've studied th' pictures o' lots o' successful men an' most o' them don't even wear scarf pins or watch charms, or even Rotary buttons. Many o' them look like they wuz laid out for burial. They don't look like they cared for tuna fishin" Schubert reviews, children, excursions or even gin. They don't look like women or janitors, or dogs, would care fer 'em. They look more like funeral ushers. Yit they're vitally important t' gigantic corporations which almost control th' very air we breathe. Most o' these high-salaried, indispensable phenomenons began life without even playin' marbles, or flyin' a kite. Many never noticed an elephant, much less carry water fer one. They never rolled hoops or chewed Climax or smoked pennyroyal. They dug right out at ten or twelve an' supported 'emselves by gatherin' bones an' ole iron, drivin' delivery wagons, cuttin' grass, an' by doin' anything ther little bodies wuz capable of. After supper they went t' night school instead o' settin' on th' courthouse fence an' smokin' two-fers or fiddlin' with th' girls, or goin' up in th' gallery t' see James O'Neil in "Monte Cristo." How is success measured, an' what makes up a successful life? Take Mrs. Em Hanger's uncle. He makes a hundred thousan' dollars a year an' stil has his General Motors. He pays $10,000 a year fer a cheerless apartment. He lays down $50,000 a year alimony, an' lashes money on a sweetie that is in love with his chauffeur. He has t' drink a pint o' hot water on arisin' in th' mornin.' He hain't seen his son since his wife tore out. He wuz a ployboy at eight, a keen discernin' dry goods clerk at nine ,a painstakin' bookkeeper at fifteen an' a cool calculatin' money loaner at eighteen. At twenty he had a full, crisp beard an' a white forhead. At twenty-one he started t' climb. His hair wuz white o'er th' temples, but his whiskers wuz thick and well trained. T'day at 67 he's a man t' be feared, t' be consulted an' listened to. He knows th' game an' is th' rulin' spirit in forty corporations. He plays around 98 when he kin git any one t' play with him an' his wife is happily married t' a $50-a-week feller.

Henry D. Hubbard of the Bureau of Standards, a specialist in atoms and atomic construction through an interview by Geo. H. Dacy for the Washington Star gives the latest facts regarding atoms and also makes many statements that conform with the Foster thesis of an electro-magnetic universe, some of which follow:

"Floating magnets were made in the form of celuloid balls with cobalt steel cores; they represent a positive nucleus surrounded by three electrons and will take this wedge shape or formation no matter how they are arranged when first placed in a shallow bowl of water. Possibly the 11-year conjunctions of Jupiter and Saturn may perturb meteor swarmorbits, sending many meteors into the sun, enriching iron radiation awakening the sleeping solar giant, releasing cosmic forces that change mass into energy, produce sun spots and perhaps more iron rays, which reach our trees and find repose in the iron in the plants. This may quicken growth as the annual rings suggest in tune with its periodicity of 11 years. What applies to trees may also occur in the case of crops. The divinity of nature yielded to the scrutiny of science and but one substance was found—electricity. The attraction which causes these floating magnets to group together acts much like the automic force. One pound would weigh 50,000 tons if the force of gravity was equal to the attraction which occurs between the proton and the electron the negative and the positive charges of electricity in the atom."

Sharon And Mercer Highway Is Opened For Light Traffic

Light traffic is now permitted over the Sharon-Mercer road which has been under construction since last April, according to statements received here. The road is not officially opened and travel is at the driver's risk, state reports.

Due to the incompletion of the road nothing is permitted over the highway but light vehicle traffic. The road is still under the jurisdiction of the contractors.

It is expected that the road will be completed and officially opened to all kinds of traffic within a few days.

Send Telegrams To Legion Officials

Telegrams, some 25 or 30 in number, were sent by local civic organizations, city officials, and business houses to the commander of the State Legion at Philadelphia, asking that the 1929 Legion convention be brought to New Castle.

These telegrams were read at the session of the State Legion Executive committee which took place this morning in the Ben Franklin hotel.

In 1903, two attempts to fly by Prof. Langley were both unsuccessful,the machine being wrecked on the second attempt and the government referred further aid. There has been a controversy to this day regarding the practicability of Langley's machine and in 1914, Glenn H. Curtiss flew this machine successfully, but since the machine was renovated to some extent, the question is still open.

Foreign Trade For 1928 Shows Biggest Gain In Many Years

Peace-Time History Records Broken By Foreign Trade This Year, Is Shown

America Will Sell Eight Hundred Million More Than It Buys, Survey Shows

By ROBERT S. THORNBURGH.
International News Service Staff Correspondent

WASHINGTON, Dec. 1.—Uncle Sam will sell about $800,000,000 more to the world than he buys this year from other countries.

Statistics available at the commerce department today showed that 1928 has been one of the most sucessful foreign trade years in the peace time history of the country.

Estimates place the exports at approximately $4,985,000,000 and imports at about $4,100,000,000 providing the present ratios are maintained through December which apepar likely.

Exports Show Gain.

The gain in exports has exceeded $115,000,000 over last year while the decrease in imports will run $100,000,000.

The favorable balance of trade now indicated will be one of the largest on record with the exception of the $981,000,000 excess of exports in 1924. Exports this year however will surpass those of 1924 by approximately 400,000,000 disclosing the tremendous strides in the country's foreign trade.

More than half of America's sales abroad this year will be of manufactured goods. Completely manufactured articles comprise about 46 per cent of the total a gain of four per cent over last year while the semi-finished products accounted for nearly 15 per cent, the same as last year.

Crude materials, making up 23 per cent of the exports showed a slight decrease while crude and manufactured foodstuffs fell off.

Thirty-six per cent of the imports will be raw materials and forty per per cent manufactured goods.

Europe Best Customer.

Europe continued to be this country's leading customer, although there was a slight falling off of exports to the continent. Gains were shown for other North American countries to Latin American, Asia and Africa. Canada bought more goods from the United States than any other country followed by the United Kingdom, Germany, Japan, France, Argentina, Italy and Australia.

Like wise the United States bought more goods from Europe, although Asia and North American countries were followed closely.

Of the individual countries Canada let as a source of supply, followed by Japan, the United Kingdom, Brazil, Germany, Cuba and British Malaya. From Japan came the silk. Brazil furnished coffee ,Cuba, sugar and Malaya rubber the big raw material items.

Present figures indicate a loss of about $400,000,000 in gold during the year. The outward movement started in late 1927 and aggregated nearly half a billion dollars by June 30. Since that time the trend changed with a slight gain in imports. Some experts believe that the gold movement has about run its course and while there will be fluctuations no enormous export like was seen in 1927-1928 will again take place unless there is a radical upheaval in the economic situation of the world.

Audubon Club Names President For Year

Donald Williams Will Lead Ben Franklin Club For Bird Study

Donald Williams was named president of the Ben Franklin Audubon club, Dorothy McCune the secretary and Mary Shabala the treasurer at a meeting which took place recently, it is announced this morning.

Many of the present members also belonged to the club last year, and, the statement declares, are active and enthusiastic workers for the protection of the birds. The boys and girls are making note books and collecting material from the National Audubon society of which they are members, as well as from many other sources.

At the last meeting, there was a contest on recognizing the common birds, at which time Doris Bridges was presented with a copy of Bird Lore because she had the largest number correct. The club now has a fine cabinet in which to keep specimens. Mrs. Betty Maldoon is sponsor of the club.

Contest Between Bible Classes To Close Sunday

Sunday morning will mark the close of the attendance contest between the men's class of the First Baptist church and the Every Man's Bible class of the Central Baptist church at Gary, Ind.

The local class is 150 points ahead and hopes to increase that lead Sunday. However, that lead is not sufficiently large but that Gary may, by an extra effort, come out ahead.

The local class has scored more points than Gary in six of the seven Sundays of the contest thus far. The class is planning for 200 men Sunday.

Every man who is not a member of some other class is invited to attend. Special efforts are being put forth by the membership committee to win a sweeping victory.

CHEVROLET

Place your order Now-
The Outstanding Chevrolet of Chevrolet History
-a Six in the price range of the four!

Since the announcement of The Outstanding Chevrolet of Chevrolet History, tens of thousands of people have already placed their orders for this sensational new car! Never before has any new Chevrolet ever won such tremendous public acceptance in so short a period of time!

The great new six-cylinder valve-in-head motor is an engineering masterpiece. Not only does it develop 32% more power than any previous Chevrolet motor . . . not only does it offer increased speed and faster acceleration—but it provides this amazing performance with such outstanding economy that it delivers an average of *better than 20 miles to the gallon of gasoline!*

A new heavier crankshaft, statically and dynamically balanced—and designed with shorter crank throws to minimize torsional strain—results in a degree of smoothness and freedom from vibration that is truly remarkable. A new automatic lubricating system carries a continuous supply of oil to the entire rocker arm mechanism—resulting in unusual quietness of operation.

A plentiful supply of gasoline is assured under all operating conditions by a new AC gasoline pump and filter. An automatic accelerating pump on the new carburetor gives faster acceleration and increased economy. And scores of other features—such as fabric camshaft gear . . . hot-spot manifold . . . high compression, non-detonating head . . . and semi-automatic spark control—contribute to every phase of performance, economy, long life and dependability.

Throughout the entire chassis is found similarly advanced design. Four long semi-elliptic shock absorber springs—set parallel to the frame and equipped with Alemite lubrication at all the shackle joints—cushion the entire upper structure against road shocks. A full ball-bearing steering mechanism, with complete lubrication at all the points of contact, results in delightful ease of control. And newly-designed 4-wheel brakes—positive in action, easy of application and noiseless in operation—provide a measure of braking control that is more than equal to the most unusual requirements.

The marvelous new bodies by Fisher are longer, lower and roomier and incorporate in all closed models an adjustable driver's seat that may be moved forward and back to suit the comfort of the driver!

Come in and learn the full and significant story of this greatest of all Chevrolets!

Dr. Heim Of Thiel Speaks At Church Conference Friday

ELLWOOD CITY, Dec. 1.— Dr. Heim, occupying the chair of Religious Education in Thiel college was the speaker of the Day at the West Conference of the Sunday School convention, which convened in the Trinity Lutheran church opening Friday morning at 10 o'clock.

There were approximately 102 present from various points in the County and all enjoyed the two lectures by Dr. Heim and the various papers read by the lay members of the brotherhood.

The ladies of the church served two meals, one at noon and the other at night, which were much appreciated. The choir rendered a pretty anthem Friday evening, and Mrs. Thelma Schenck, soloist, sang a lovely number. The quartette, comprising Robert Taylor, P. W. Blocher, Mary Blocher and Mrs. Schenck also contributed a selection, making the closing services of the conference one long to be remembered. A. J. Dambach of the local church was elected vice president of the association.

American Legion To Hear Reports Membership Drive

ELLWOOD CITY Dec. 1.—Monday evening the regular semi-monthly meeting of the American Legion will take place in the Legion headquarters on Sixth street. At this time reports will be given concerning the hotly waged membership drive between two groups.

At the end of the contest the losers will banquet the winners.

Miss Libby Johnston Suffers Accident

ELLWOOD CITY, Dec. 1.— Miss Libby Johnston, who is making her home with her nephew Dr. Charles Bell of Fifth street, and known to her many friends here as "Aunt Libby" had the extreme misfortune to slip and fall down a flight of steps in the Bell home yesterday and break the bones in each of her wrists. Her extreme age, 89, makes her accident especially difficult to deal with.

Her many friends here wish her a speedy recovery, however, and extend every sympathy.

HOSPITAL NOTES

ELLWOOD CITY, Dec. 1.—Admitted: Rocco October, of Burnstown; Mrs. Charles Armand of Wampum avenue; Freer Dennison of Hazel avenue and Mrs. George Paul of First avenue. Discharged: Mrs. Edward Bowles of First street.

Gives Party On Daughter's Birth Anniversary Here

ELLWOOD CITY, Dec. 1.—In honor of her daughter Miss Janet Mook's eleventh birthday anniversary, Mrs. Gerald Mook of Hazel avenue, entertained eighteen little girls at a party Friday. Games and contests formed a diversion, and the prizes were won by Margaret Coie, Margaretta Hall and Marie Bartel. The little guest of honor received many lovely gifts.

Later delicious refreshments were served, grouped about a lovely pink and white birthday cake bearing eleven twinkling candles. Mrs. Mook was assisted by her daughter Miss Maxine and Miss Viola Bookamer.

Letita Baker Dies Suddenly Thursday

Former Resident Of Ellwood City Taken While In Early Motherhood

ELLWOOD CITY, Dec. 1.—Mrs. Letitia Baker, wife of Adelphos Baker of Akron, and former resident of Ellwood City, was taken by death Thursday morning at her home in Akron. This news comes as a great shock to her many friends here where she lived with her parents Mr. and Mrs. E. B. Baker of Fourth street for so many years.

Death was caused by an attack of influenza but Mrs. Baker seemed to be recovering, when the last two days illness proved to be very serious, ending in the death of one who was just in the early flower of her motherhood, leaving two children Richard and Elizabeth beside her husband Adelphos Baker a prominent attorney in Akron.

She is further survived by her parents Mr. and Mrs. E. B. Baker and brothers Alfred and Kenneth.

Mr. and Mrs. Baker left Friday morning for Akron. Funeral services will be conducted this afternoon.

"Tish" Baker as she was known to her many friends here lived in Ellwood until about eight years ago when she married and moved with her husband to Akron. She graduated from the local high school and was active in all social and religious movements in the town. Her passing will cause a gap in the memories of local friends that will be hard to fill and deep sympathy is conveyed to her desolate husband and parents.

Have Large Party Thanksgiving Day

ELLWOOD CITY, Dec. 1.—Mr. and Mrs. M. C. Hogue of Hazel Dell stop entertained members of the family numbering 33 for Thanksgiving dinner. Fall flowers formed a pretty decoration, and the ensuing hours were spent in games and contests, and three tables of 500. In the jigging contest Mrs. M. G. Hogue won high honors.

BOY IS INJURED

According to the report made to the police yesterday, Harry Paul, a boy residing at 703 East Reynolds street, had the finger of one of his hands severely cut and injured Thursday while at the football game. He was leaning against the fence on the stadium side of the field, when he slipped and fell, catching the finger in the wire of the fence. The services of a physician were required to take care of the injury.

WAMPUM

CLUB MEETING

Woman's club met with Mrs. W. A. Brown, Kay street, Friday afternoon. Twenty-five ladies were present. Following the business meeting Mrs. C. F. Morrow substituted for Mrs. David Shapiro as leader. A very interesting Thanksgiving program was given, which follows: Piano solo, Jane Morrow; First Thanksgiving, Mrs. O. L. Jackson; The Pilgrim Mothers, Mrs. C. B. Reno; Religious Festivals, Mrs. E. C. Hulbert; music, Thanksgiving hymn, Mrs. Jackson and Mrs. S. Hennon.

A motion was made and carried to have a Community Christmas tree. Arrangements will be started at once to make this event a success, it being the first of the kind ever had here. The Civic committee, with the assistance of all other committees, will have charge of affairs.

An invitation from the council for a representative from club to attend the meeting and dinner at the time of bridge opening was accepted and the chairlady of the Civic committee was appointed, Mrs. C. F. Morrow.

The Capture Of Aguinaldo (Concluded)

AFTER THE CAPTURE OF AGUINALDO (MARCH 23, 1901), FUNSTON'S MEN, WITH THEIR PRISONERS, MADE THEIR WAY TO THE COAST, WHERE THEY WERE MET ON MARCH 25TH AND PICKED UP BY THE U. S. GUNBOAT "VICKSBURG". THE "VICKSBURG" AT ONCE HEADED FOR MANILA.

AT DAYBREAK ON MARCH 28TH, FUNSTON IN THE "VICKSBURG'S" LAUNCH, WITH HIS DISTINGUISHED PRISONER, WENT UP THE PASIG TO GEN. MACARTHUR'S HEADQUARTERS. MACARTHUR WAS JUST ARISING. "GOOD MORNING, GENERAL," SAID FUNSTON, "I HAVE BROUGHT YOU DON EMILIO."

THE NEWS OF THE EXPLOIT OF GEN. FUNSTON AND HIS COMRADES WAS RECEIVED WITH ACCLAIM IN THE UNITED STATES. AGUINALDO WAS IMPRISONED FOR A TIME IN MANILA, AND LATER SENT INTO EXILE.

THE CAPTURE OF AGUINALDO BROUGHT ORGANIZED RESISTANCE AMONG THE FILIPINOS TO AN END. BUT THE WAR WAS PROLONGED, WITH SPORADIC FIGHTING, FOR ANOTHER YEAR BY A NUMBER OF GUERILLA LEADERS, EACH ACTING FOR HIMSELF.

EXPECT FAST BATTLES MONDAY NIGHT

Carpentero To Battle Indian

Carpentier Will Bring Out Everything Frankie Rio Has

THREE OTHER GOOD CONTESTS ARRANGED

By ED. FRITZ

Luis Carpentero, Filipino, and Ernie Peters, Indian, will arrive here late tonight to rest Sunday in preparation for a gruelling bout Monday night at Jolly Bowl. The hard-hitting flyweights, two of the best in the world, are confident of winning the setto, which is scheduled for 10 rounds, and when the bell rings the largest crowd in some time is expected to be in the bowl.

The real reason for this is that the fan, a wiseacre, knows that Carpentero and Peters are as evenly matched as it is possible to match them. And again, they have seen the two fight, know both fighters have a punch, and unlike the "tappers" are not averse to standing head to head, toe to toe and slugging.

Boxers With Punch

Fans like the fighters with the "sock", and in arranging Monday night's main "go" Bill Jolly, the promoter, certainly arranged a battle that has all the prospects of being one of the best that has been shown in the bowl. Each of the main bout fighters has clashed with Willie Davies and fans realize they are good.

When Carpentero fought Davies he was outpointed, but no difference how many raps clever Willie delivered to the Filipino's chin, the little brown boy kept tearing in, and his left hand was a mitt that Davies was decidedly careful to escape. When Peters fought Wee Willie he kept the Welshman on his toes every second.

Have Opposite Styles

Carpentero is a southpaw and hits, naturally, of course, best with his left. Peters is somewhat cleverer than Carpentero, and while he carries a mighty good "sock" in his right hand, the brown boy's style may offset whatever edge in cleverness that Ernie may possess. At any rate, the match that Jolly has scheduled certainly looks like the real goods to the writer.

Carpentero, a southpaw, is a terrific hard puncher. Peters is a little more clever than the Filipino and hits soporifically with his right hand. Whether the Filipino's semi-southpaw style will offset Peters' cleverness remains to be seen, but there is one certainty—the main bout ought to be a thrilling 10-round fight.

Good Fight Here

Frankie Rio, who has met all of the best featherweights in this vicinity, will stack up against the cleverest fighter he has fought at the bowl when he meets U. S. Carpentier of Pittsburgh. U. S. lost to Johnny Datto, but Rio is not in Datto's class and we look for a sensational fight.

Persons who like class will see it in the semi-final. Carpentier and Rio have two of the best left hands in their class. Rio hooks good to the jaw and is a "crowder" when right. Carpentier is fast, fleet and hits fairly well with his right. This bout will more than satisfy the fans who like fast and furious going, Jolly declares.

Three Slugging Matches

Romeo Pacelli, local featherweight, has appeared here often, as has Mickie Dugan, and as there has been considerable talk about Romeo being able to take his measure, Dugan accepted the engagement, despite a few pounds difference in weight. Romeo hits harder than Dugan.

Elmo the Mighty, who has been fighting regularly every week, will meet Nick Polis of Woodlawn in one four-round bout, and Tom O'Leary, swinging Irish lad, will take on Roy Minteer, the South Side Frenchman. Every bout on the card shapes up like a good fight and if indications and interest count, there'll be a big crowd at the bowl.

CASA SAVOIA QUINTET SCHEDULED TO MEET

President Joe Paglia of the Casa Savoia Society, requests that all basketball players meet on Sunday night at 7 o'clock at the House of Savoia Hall on Home street. Plans for the coming floor season will be outlined at the meeting.

On May 6, 1896, Prof. Langley's model flying machine (aerodrome) driven by a steam engine using naphtha as a fuel made its first successful flight—the first time in history that a motor-driven aeroplane accomplished a sustained flight.

Youngstown Displays Good Sportsmanship In Ostrosky Issue

Youngstown Agrees To Let Ostrosky Play His Final High School Game

South High school officials of Youngstown showed real sportsmanship last Thursday when they permitted Anthony "Tony" Ostrosky to play his final scholastic game with the New Castle team.

The Ostrosky issue was finally settled by George Chatterton, principal of South High who agreed after much deliberation, late Wednesday night to allow New Castle to use their star left end. Ostrosky played a whale of a game at end Thursday and was given quite an ovation.

Georgia Tech To Play California

Georgia Tech Accepts Game With California University On New Year's Day

(International News Service)

ATLANTA, Ga., Dec. 1.—Georgia Tech's golden tornado will do its stuff in the Rose bowl against the Golden Bears of the University of California on New Year's day.

This matter was settled finally Friday when the Tech faculty met and officially sanctioned the game. At the meeting a message was read from Dr. S. V. Sanford, president of the Southern Conference, also okeying the trip west.

The tornado will leave Atlanta about December 22. The exact date has not been decided upon.

Already a telegram has been received from Dr. Wallace Campbell, president of the U. of C., inviting Tech to be the opponent. That telegram will be answered forthwith by Dr. L. Brittain, president of Tech, accepting the invitation.

Church Basketball Starts December 10

At the meeting Friday evening of the church basketball league the Highland U. P. church team was voted into the league. This makes a total of 10 teams in the league, the schedule being arranged so that each team will play two games with every other participant in the league. The series will start December 10.

The teams now in the league are the First M. E., Mahoning M. E., Croton M. E., Central Presbyterian, Central Christian, Wesleyan M. E., Highland U. P., Temple Israel, Third U. P. and the First Baptist

Stanford-Army Battling Today In Metropolis

Coast Team Invades East To Meet Great Army Eleven In Sectional Contest

ARMY TEAM IS SLIGHT FAVORITE

By DAVIS J. WALSH
Sports Editor International News Service

NEW YORK, Dec. 1.—Having been duly warned by the depressing circumstances surrounding the defeat of N. Y. U. by Oregon Aggies two days ago this man's town was all a-twiter with mortal dread today as it sent the second prospective champion of the east into action against a non-championship team from the west coast. The occasion was the great intersectional meeting of the year, involving the Army and Stanford and a turnaway crowd of 80,000 was going out there imbued with the notion that it was about to witness the game of a life time.

The Army beaten only by Notre Dame in a melodramatic finish, had its its Cagles, its Murrely, its Sprague and its Perrys keyed up to the idea that only victory in this game would rehabilitate eastern prestige, somewhat deprecated by the events of Thursday. Psychologically, the best thing that could have happened to Army football was the defeat of N. Y. U. by this team that supposedly had come on from Oregon just for the ride. If the Army blows this one it will do it with its eyes shut and its mouth shut.

Stanford is Set.

Stanword, potentially a great team but never actually so this year was here to make the supreme bid, the effort of its young life to win a football game from one of the east's favorites with most of the east looking on. Eastern teams have been badly beaten by the coast but usually on the coast, thereby giving the loser lots of lingual exercise in a big, broad way about climatic changes and the overland trip.

This time Stanford is taking the rap in question just as did the Oregon Aggies earlier in the week and if the cardinal shakes it off to come on and win, there will be nothing to it but to admit that possibly better football may have something to do with it.

Stanford and Glenn Warner. They always have been capable of a great single game effort any time and this looks like the moment. Psychology, the alleged arbiter of football fortunes has distributed its large impartially. Stanford knows that it has taken the worst of it in making the trans-continental jump. The Army knows that it is taking on one of the best teams of the year. It ought to be a game for your hangnails.

JOHNNY DATTO STOPS MARCELLS

Right To Jaw Knocks Out Rochester, N. Y., Boxer In Third

By ED. FRITZ

ERIE, Pa., Dec. 1.—Johnny Datto, Filipino of Cleveland, knocked out Mike Marcells of Rochester, N. Y., last night in the third round of a bout scheduled to go ten rounds at the Erie arena.

After jabbing and hooking his left to the body for the first two rounds the Filipino caught Marcells with his guard down and sent a right to the chin.

Marcells flew into the ropes and when he fell to the floor he was as limp as a dishrag and he was still out when Datto and officials carried him to his corner.

Datto forced the fight in the first two rounds. Marcells jabbed and hooked but the Filipino apparently had his number and put over the kayo when an opening was presented.

Notre Dame Team In Coast Battle

Southern California And Notre Dame Play At Los Angeles Today

ODDS ARE EVEN ON BIG GAME

(International News Service)

LOS ANGELES, Dec. 1.—The Trojans of Southern California today sallied forth to do or die against the rambling Irish or Notre Dame. If the Trojan forces prevail this afternoon against both shock troops and cavalry of Notre Dame, national reputation and banking forthwith become theirs.

Unbeaten in their own league and tied but once, the Trojans risked repute by giving battle to a team that has suffered three defeats in competition in eastern and mid-western sectors.

Those who take their football seriously concentrated on the Jones system of power and ball-hounding as against the trickery of Rockne reception and similar technicalities.

Niemiec Injured.

The two teams were reported fit for duty. John Niemiec, halfback of Notre Dame, is in questionable form, however, due to a shoulder injury. And Marshall Duffield, aggressive substitute for "Dynamic Don" Williams, the Trojan quarterback, is also a possible casualty, due to a similar injury.

Against a shifty, tricky running attack, interspersed with even more tricky passing, Southern California was prepared to launch a counter-offensive that has been perfected only through weeks of gruelling labor.

Close followers of the fortunes of both teams were pretty well agreed that the significant attack on either side today would be through the air.

Well rested after their most recent encounter—a rather severe drubbing at the hands of Carnegie Tech—and thoroughly drilled in both old and new strategy as well as in defense against recognized Trojan plays, the Notre Dame squad presented a tough hurdle to any team today.

Sir George Cayley, an English scientist, in 1809 and 1810, in a series of magazine articles, was the first to explain the laws governing heavier-than-air flying, especially with gliders.

Shenango High Quintet Defeats Jacksville 16-15

Shaftic Wins Game For Shenango By Tossing Field Goal In Final Seconds

Shenango Township High school basketball team defeated the Jacksville Independents 16 to 15 in the first of the basketball season at Shenango High on Friday night. Shaftic won the game for Shenango by tossing a field goal with only a few seconds left to play.

In the first game of the program the Freshmen boys downed the Juniors 14 to 11. The Junior B's of New Castle Senior High school defeated the Shenango High girls team 19 to 13, in the second game of the evening.

The Shenango High boys led by Shaftic who caged three baskets and also played a strong defensive game, led the Jacksville team up until a few minutes before the whistle blew, Jacksville forged ahead and held a one point lead until Shaftic caged the deciding basket. The first half ended 12 to 9 in favor of Shenango High.

Next Tuesday night the Shenango team will play at West Sunbury and on Tuesday night, December 11, will meet the New Castle Business College team at Shenango.

The summary:

Shenango High 16.		Jacksville 15.
Winters	F	D. Humphrey
Pilner	F	J. Humphrey
Baldwin	C	McCreary
Shaftic	G	Book
Lawrence	G	C. Studebaker

Substitutes: Shenango High, Smith, Gemmil. Jacksville: R. Humphrey, B. Studebaker. Field Goals: Baldwin 2, Shaftic 3, Smith, J. Humphrey, McCreary, Book, C. Studebaker 3. Fouls: Shenango High 4 out of 6; Jacksville 3 out of 4. Referee, Waddington.

Ring Luminaries Suffer Reverses

Kid Chocolate, Tuffy Griffith, Johnny Risko And McLarnin Are Toppled

TEX RICKARD GETS REAL SURPRISES

By LES CONKLIN
International News Service Staff Correspondent

NEW YORK, Dec. 1.—Tuffy Griffiths knocked out after 55 consecutive victories! Kid Chocolate, also unbeaten previously, held to a draw!

This was the double surprise given the customers at Madison Square Garden last night when Griffiths was kayoed in the second round by James J. Braddock, Jersey City light-heavyweight, and Chocolate, the sensational colored bantamweight, was fought to a standstill by the hard-hitting Joe Scalfaro of New York.

Promoter Tex Rickard, who had counted upon these two stars to draw several huge gates for him this winter, had barely recovered from the double shock when his plans for elimination tournaments were further shattered by reports of two fistic upsets in other cities. Jim Maloney, long a punching bag for grade A heavyweights, outpointed Johnny Risko, a topnotcher, in Boston last night. And "Baby Face" McLarnin's hopes for a return bout with Champion Mandell were ruined when he was knocked out in Chicago by Ray Miller, Windy City lightweight.

Griffiths Kayoed.

Braddock ruined Griffiths with a straight right to the chin in the second round. The widely-heralded western crack hit the canvas for the first time in his career. Too dazed to take advantage of a count of nine, he arose after a count of three.

The western terror was knocked down four times in all. Then Kid McPartland carried the groggy Tuffy to his corner without the formality of a count.

Kid Chocolate, as well as Griffiths, was floored for the first time in his career. A right by Scalfaro, the first punch of the bout, sent him to the canvas. He weathered the storm, however, and rallied to gain a draw in ten rounds.

In 1859, John Wise, in a balloon, flew from St. Louis, Mo., to Henderson, N. Y., 809 miles in 20 hours.

Westminster Closes Successful Season

Lands On Top Of Conference Heap For First Time In Years

Few Teams Made Any Big Score Against Titans This Season

(Special To The News)

NEW WILMINGTON, Pa., Dec. 1.—Westminster closed the 1928 football season a week ago with the most successful season in a decade tucked away in the record books. Coach "Dike" Beede's outfit looked good in every game, scored on all opponents but one, were successful in tallying six points against the touted Carnegie Tech team, won four games, lost five, and tied with Duquesne for the tri-state conference championship.

Victories over Geneva, Thiel, Waynesburg, and Bethany gave the United Presbyterians 800 per cent in the conference standing, Duquesne being the only team in the loop to defeat the Titans. A total of 62 points were scored by Westminster players to 90 by opponents. Of the 90 points scored by rival teams, Carnegie Tech accounted for 32 in the opening game.

Tech furnished the opposition for the blue and white in the opening game of the season. The giant Tartans played hard to win by a 32 to 6 score at Youngstown. While Beede's crew looked good against this great team, many bruises and hurts resulted which kept the U. P. outfit from showing to advantage in the next three games.

The Titans then dropped three games in a row, Allegheny, St. Francis, and Grove City eking out victories after the hardest kind of contests. The first victory of the season was the 7 to 0 decision over Thiel in the annual homecoming day game. The Westminster team started to hit its stride in this game, and had not Forsha and Dible been hurt in the game with the Lutherans, perhaps the Beedemen would have gone through the remaining conference games without defeat.

Duquesne, after three quarters of nip-and-tuck football, by sheer force of numbers won a fourth-quarter rally game at Pittsburgh the following week. With the score at 6-6 at the beginning of the last period, the Dukes succeeded in putting over two touchdowns which sent the Titans down to a 20 to 6 defeat.

Bethany was defeated at Bethany, W. Va., the following Saturday when a last-minute dash by Palmer and two forwards, McQuiston to Pipoly, resulted in a touchdown to clinch what looked to be a scoreless tie.

Waynesburg was the next conference rival to be defeated, the Yellow-jackets being downed by a 13 to 0 score. In this game, Havrilla, Lauder, Palmer, and McQuiston played brilliantly in the backfield to completely dazzle the Jacket defense.

The climax to the season came with the home game with the strong Geneva outfit. Conceded to have but little chance of defeating the Covenanters, the Westminster team threw a scare into the Beaver Falls team in the opening minutes of play and had a touchdown before the Flenniken-coached lads could gather themselves together. An intercepted pass gave the U. P. team the second touchdown, and Geneva went home with a 12 to 0 defeat, their first one in tri-state conference competition in three years.

The season just closed was the final one for six men on the Westminster team. Captain Joseph Furno, tackle; Stephen Havrilla, full; James McQuiston, quarter; James Lauder, half; Charles Ayers, guard; and Emmanuel Krueger, center, will be lost to the team next year. However, Captain-elect Boone will have nine letter men to play with next year. New material will be needed, however, to make a winning team.

The summary of the season:

South America Offers Big Opportunity For Automotive Expansion

Alfred P. Sloan Jr. Says Hoover's Good-Will Tour Will Aid Big Business

America's Overseas Automobile Business Is Shown Rapidly Increasing

By JAMES L. KILGALLEN
International News Service Staff Correspondent
(Copyright 1928 International News Service)
(Article Two)

NEW YORK, Dec. 1.—"South America, in my opinion, offers at present the broadest and biggest opportunities for the expansion of America's overseas automobile business.

"President-Elect Hoover, in visiting the important points in this market of tremendous possibilities, is making an outstanding contribution in the further development of America's foreign trade. The influence of his good-will journey will reach far beyond the particular countries he will visit."

Recently Visited Europe

Alfred P. Sloan Jr., president of General Motors Corporation, the biggest industrial organization in the world, made these statements in an exclusive interview with the writer today. He recently returned from a five weeks' business survey in Europe.

Mr. Sloan painted a vivid word picture of the tremendous and steady growth of America's automobile business in foreign countries and its resultant effect upon the prosperity of the United States. He told how in the Pampas of the Argentine, cowboys are using automobiles; how motor cars are displacing llamas in the Andes of Chili and Peru, and how the royal family of Japan now ride in limousines, although still retaining their jinrikishas.

"The automobile is changing the psychology of peoples—of nations," declared Mr. Sloan, an alert, keen-minded, immaculately dressed man of 53, who looks considerably younger.

Very Great Demand

He visualizes a "very great potential demand" for American-made cars in the foreign field. Discussing his recent trip abroad he said the motor industry in Europe is advancing at a rapid pace and the sale of U. S.-manufactured cars is on the steady increase.

"The export markets offer great opportunities for sales of American made cars. "Our sales of motor cars overseas this year will exceed 250,000.

"General Motors, which operates in practically every country in the world, will do an overseas business for the year 1928 that will closely approximate 300 million dollars. In 1927 the wholesale value of our sales overseas were 98 millions. Our exports in 1926 were 98 millions; in 1925 they were 77 millions; and in 1924 over 50 millions.

Mr. Sloan denied that when he was abroad he initiated negotiations for General Motors acquiring the largest automobile company in Germany and Italy.

The General Motors chief executive smiled when asked if the point of saturation in automobile sales had been reached in the United States.

Looks For Increase.

"Personally I do not think so" he replied. "I fully believe that not only will our present trend of motor car sales be maintained in this country but will increase.

"Yet we must accept the fact that it cannot increase at the same relative rate that it has in the past ten years. One factor that will contribute to this increase is the export field where the potential demand for automobiles is very great.

"In many overseas countries transportation of both goods and individuals is in a very primitive stage. The railroads are scarce and limit transportation from one large place to another. The railroads in some countries do not serve the people in the sense that we understand them.

"The motor car and the motor truck as well provides the only form of practical transportation. It does this at a relatively low cost and with greater flexibility and reliability. Even though road development in some countries is frequently in a poor state the modern car can nevertheless go almost anywhere—and better than other mediums of transportation.

Gives New Outlook.

"Therefore the use of the motor car and the motor truck is not only an economic necessity but it is a contributing factor in the development of various countries. It gives the people a new outlook in life, changes them in a psychological way. It increases their breath of vision, broadens their horizon and makes for better working conditions and a higher standard of living."

Mr. Sloan declared that outside of England and the continent of Europe the American-made motor car dominates the market.

"This is because American-made cars offer transportation of both goods and passengers at a relatively low cost, with comfort and reliability unequalled by any competing nation—not only unequalled but unapproached," he asserted.

"Although all overseas markets contribute to this general picture, conditions vary. I should say that South America offers the broadest and biggest opportunities for expansion—at least for the present. And, as I said, Mr. Hoover's visit to Latin American countries will do a tremendous amount of good."

(Editor's Note:—In Monday's story, the third and last article of this series, Mr. Sloan will comment on the New York Stock Market which has been attracting considerable attention of late).

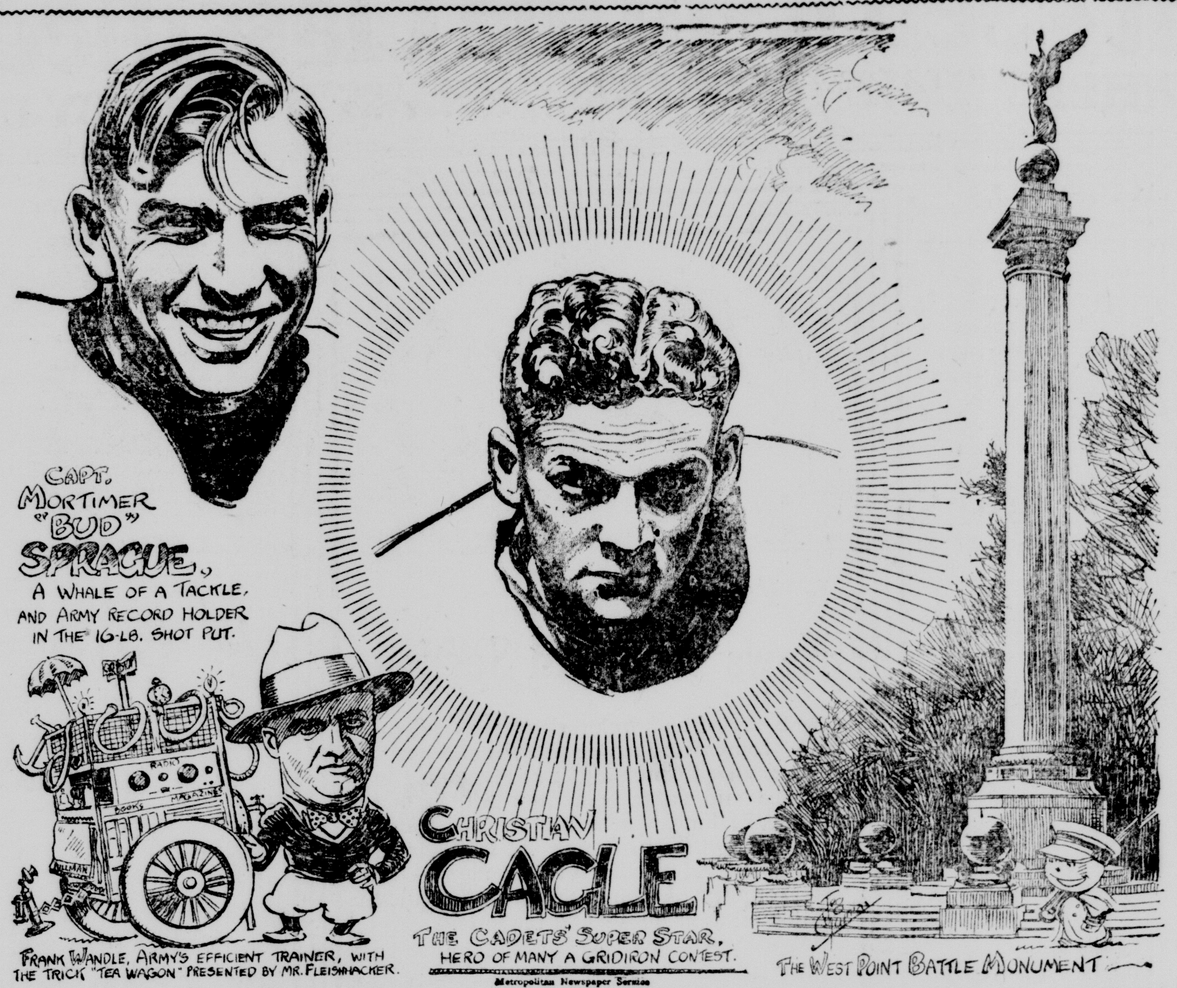
THE BEST-KNOWN SOLDIERS BY FEG MURRAY



Up at West Point, overlooking the cold gray cliffs of the Hudson, stands a tall shaft of marble upon the top of which poises a Winged Victory, and around the base of which are numerous old-time cannon radiating out from the center like the spokes of some giant, rimless wheel. Engraved on various parts of this monument you will find the names of West Pointers who made the Supreme Sacrifice in the many wars their country has participated in. Countless names of battle heroes, all "Gone West," and an unending source of inspiration to the eager young cadets who drill beneath the shadow of that Battle Monument each week.

Two of the living battle heroes at the United States Military Academy are Christian Cagle and Mortimer Sprague, star and captain respectively of many a gridiron war, and the Army's best bets in the Stanford game of December first. Christian Cagle, called "Red," although his hair isn't really that hue, and Mortimer Sprague, called "Bud," because no big tough he-man would want to be called Mortimer, are the shining lights of the Army team in my opinion, although perhaps others would choose Perry, the other tackle; Messinger, an end; or Hall, the center, as the outstanding lineman instead of Sprague.

Cagle's place on any All-American team seems assured. He has starred in nearly every game with long runs and passes, and is a good defensive player as well. He is fast, cagey, fearless, and has a fine pivot, crow hop, straight arm, and hip swing.

Sprague, a Texas product, holds the Army record in the 16-pound shot-put, and will be up against three or four good weight-throwers in the Army game, notably Bill Hoffman and Harlow Rothert, former and present national collegiate champion respectively, and Herb Fleishhacker, whose father, a San Francisco multimillionaire, presented to the Academy the trick "watering cart" that Trainer Frank Wandle wields so well when time out is called for a cadet player.

Central Chile Is Rocked By Tremor; Big Damage Done

Feared Many Killed As City Of Talca Of 40,000 Is Shaken

(International News Service)

BUENOS AIRES, Dec. 1.—A series of sharp earthquake shocks were reported from central Chile today.

It is feared many persons were killed.

Many persons are known to have been injured.

Talca, a city of 40,000 population and the capital of the province of Talca, was badly damaged.

The shocks were felt far south of Talca.

Chillan, 80 miles east of Conception was rocked. A number of buildings were shaken down.

The populations of Rengo, Chillan and Talca were panic stricken. Unusual interest was attached to the quake because of the South American visit of President-elect Hoover of the United States. Mr. Hoover is at Guayaquil, Ecuador, today. He is due in Chile next week.

The Chilean government despatched troops to aid the homeless and prevent looting.

Bail Forfeited In Mable Boylan Case

Failed To Appear For Sentence After Court Had Refused A New Trial

In an opinion handed down this morning Judge Hildebrand refused a new trial to Mabel Boylan, who was convicted of driving an automobile while under the influence of liquor. Mrs. Boylan failed to appear for sentence when her name was called. Her bond in the sum of $1000 was her husand, E. J. Boylan and Harry Miller as bondsmen, was declared forfeited. It is claimed that since the trial the Boylan's have moved to Ohio. Mrs. Boylan was arrested for driving an automobile on Washington street. At the trial of the case the jury found her guilty and an application was made for a new trial.

Weekly Review Of New York Market

By W. S. COUSINS
International News Service Financial Editor

NEW YORK, Dec. 1.—Geared up to its highest capacity, the bull market in industrial stocks rolled irresistably forward this week. Throwing caution to the winds, stock traders and speculators from all sections of the country rushed into the New York market to buy the sky-rocketing favorites which have electrified the big financial district by the ability to perform like shooting stars. With but little momentum, the high priced "richmen's stock zig-zagged with each resting place higher than the last. The big professionals and pools which are "running the market" piled in snears of buying orders, and stocks ballooned 10, 15 and 50 points a day, and in some cases 100 points or more in the week.

Prices Climb High

Spectacular price climbs were not confined to the stock exchange. The curb market, Sometimes called the "little board" but in the last few months having smartly outgrown that title, offered as its contribution to the week's sensation flying leaps of 30 to 60 points in the speculative favorites and a daily turnover of 3,000,000 shares of stock. A year or two ago 500,000 shares, would have been considered a big day on the curb, and the Wednesday turnover of one stock, Canadian Marconi, 320,000 shares, was equivalent to a moderate day's business on the whole board.

In the outside, or unlisted market, sensational trading in bank stocks sent prices of the strong and conservative New York City bank shares sky-rocketing all the way from 50 to 120 points in a single session. National City Bank's new melon-cutting, the increase of the cash dividend of two important banks and the swallowing of the Garfield bank by the chase brought a host of speculative buying to bank stocks.

Closing Inaffected

Neither the Saturday closing nor the closing of all markets on Thanksgiving day placed any obstruction whatever in the path of the moving stock market. Putting on of the shutters permitted one more day for the acumulation of a huge volume of buying orders for speculative stocks of all kinds, and when the doors opened, facilities of the exchange were fairly swamped.

Radio's new jump to $400 a share was the feature of the week on the big board, but a score or more of the hi-priced speculative favorites, like Montgomery Ward, Sears Roebuck, Victor Talking Machine, Du Pont, Union Carbide added from 10 to 50 points to their market values during the week. Public Utility stocks forged to the front the week-end, with New York City Gas stocks jumping wildly under the spur of enormous buying demand, backed on rumors of a probable merger of the city gas and lighting properties of the Consolidated Gas company, Brooklyn Edison company, Brooklyn Union Gas company and other powerful concerns.

The big board this week presented a picture of a market run wild. Under the whip and spur of the powerful professionals, trading favorites were boosted to the loftiest heights of the year. Brokers on the floor of the exchange fought and gesticulated in an effort to keep open the avenues of the heaviest world-wide stock trading the country has ever known. Though the market is geared up to a 6,000,000 shares daily pace, the stock exchange governors are firmly convinced that the 10,000,000 share day is not far off, and are already making preparations to that end. Up they go and the sky is the limit.

N. Y. STOCKS

By W. S. COUSINS
International News Service Financial Editor

NEW YORK, Dec. 1.—Nervousness over yesterday's break in the high-priced favorites and fear of a squeeze in the money market hovered over the big board in the shot session today.

Stocks wobbled at the opening and new losses of 2 to 6 points were marked up in the first hour against U. S. Steel, Victor Talking Machine and other favorites in the last sky-rocketing move. Oil gained ground under lead of Standard of New York, while the motors moved into a lower range with Yellow Truck under fire.

Thunderings against the collapsed pool in Canadian Marconi on the curb rumbled through the air as the chairman of the board that concern in Toronto issued a new statement, saying that the rise from 3 to $27 a share in the stock was unjustified; that the par of the stock is only $1 a share, and earnings last year were 1 cent a share.

Traders raised questions about the safety of other stocks in which their good money is tied up and trading fell off in all markets. Sales in the first half hour on the big board were only 775,000 shares, against 1,300,000 shares in the same period yesterday.

Pennsylvania took the lead in the railroad stocks, snatching the spot light from New York Central. At 74½ old Penn was at the price peak of twenty years. Away back in 1908 Penn sold above 75, but in disastrous slump of 1921-22, the stock flopped to $33 a share.

Thomas Fortune Ryan Leaves $300,000,000, Will Is Made Public

Son, Allan A. Ryan, Is Bequeathed White Pearl Shirt Studs; That Is All

Ryan Family And Relatives Well Taken Care Of; Close Friend Gets $50,000

(International News Service)

NEW YORK, Dec. 1.—A father and son feud that lasted for over ten years was revealed Friday when the will of Thomas Fortune Ryan, retired capitalist who died last week, was filed for probate.

The will, which disposes of an estate said to be valued at more than $300,000,000, cut off a son, Allan A., with only a set of white pearl studs.

Other members of the family and faithful servants are bequeathed most of the estate. Only a few bequests are made to charity because, the will explains, Ryan felt that during his life time he had contributed to many religious, charitable and educational causes.

After making various financial bequests to distant relatives and friends and disposing of personal property the will directs that the residuary estate be divided into 54 parts and distributed as follows:

Parts Distributed.

Twelve parts in trust for Glendenning J. Ryan, a son, who is to receive the income for life. Upon his death the principal is to be divided among his children after they have reached the age of 30 years.

Twelve parts to John B. Ryan, a son, with the same provisions concerning his children.

Five parts to the children of the late Joseph J. Ryan, another son.

Similar provision is made for the children of Ryan's deceased son, William K.

Eight parts to be divided among the children of Allan A. Ryan.

Twelve parts are to go to the widow, Mary T. Ryan.

The trustees are directed to pay Mrs. Ryan as much of the income as is necessary to support her, the surplus to be divided into 42 equal parts and divided among the children (with the exception of Allan) and the grandchildren.

On the death of Mrs. Ryan, the principal is to be divided into 42 parts with the same distribution.

Herbert H. Vreeland received $50,000 for his "unending loyalty and marked ability in handling my business affairs." The trustees also are directed to retain him at a salary of $15,000 a year to assist in the Ryan businesses.

School Gets Paintings.

The University of Virginia receives some of the Ryan art treasures. The will directs the university be given the oil paintings of the founders or members of the Virginia company at the Oakridge, Va., residence of the Ryan family.

Antique marble busts, bronzes, statues, paintings, rugs, tapestries, furnitures, etching, engravings, books and other objects of art are to be sold by the trustees at not less than the appraised values. The widow and sons have the first right of purchase.

The personal trustees are designated as Glendenning Ryan and William C. Potter, president of the Guaranty Trust company. The latter receives a small Troubetzkoy bust of Ryan.

A bust by Rodin goes to John B. Ryan. Two busts go to Glendenning Ryan, who also receives all the Ryan horses in this country and abroad.

Then comes the paragraph referring to Allan A. Ryan. It says:

"I give and bequeath my white pearl shirt studs to my son, Allan A. Ryan."

Trustees Provided For.

The will was dated Nov. 9, 1927. It provides that the trustees are to be free of the "ordinary restrictions regarding investments." They are to receive $150,000 each for their services.

The will does not state why Allan A. Ryan was disinherited. It merely gives him the white pearl studs and thereafter does not mention his name, except in making bequests to his children.

But harking back ten years friends say there is little doubt why Allan A. Ryan, now bound for New York on the Majestic, was cut off. In October, 1917, Allan A. Ryan's father married Mrs. Cornelius C. Cuyler, a few days after the death of the first Mrs. Ryan.

Allan was bitter in his criticism of his father and gave a statement setting forth his views to the newspapers. He felt, he said, that his father should have waited a year at least before marrying again.

The estrangement began then and as far as is known father and son continued their feud through the years. When Allan went bankrupt in Wall street as the result of his corner in Stutz, it was expected his father would offer financial aid.

He did not and Allan was expelled from the stock exchange. It is said, however, that the elder Ryan often voiced his respect for the fighting spirit displayed by his son in the spectacular financial battle.

Roaming Round With Richards

Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New Castle

Got to thinking of Florida yesterday afternoon, warm days and balmy nights, and a breeze drifting across a bay. Funny thing. Happened to pass a barber shop in which there were lemon trees and from the limbs were hanging some rather large lemons, or maybe they were grape fruit. At any rate a little later I ran into Harry Gormley and Harry had just got back from a drive through to Florida.

Outside the rain was hammering futiley at the windows and now and then a gust swooshed up against the window as though enraged that it couldn't break it. Inside Harry was telling the boys of the sunny south and how nice it was.

But about the time he was in the middle of the narrative on sunshine and orange blossoms (actual, not matrimonial) some low brow broke in with a question about hurricanes. You know how some folks are. Always throwing a monkey wrench into the gears of entertainment.

Harry didn't meet any first class hurricanes while he was down which seemed to please him just as well. Palm Beach is dull he says and of course its a little early yet for the season to show an influx of visitors, but perhaps those hurricanes have something to do with it.

After talking to Bert Stevenson for a while a fellow feels as though he would like to apologize for the Florida hurricanes. Down where Bert raises a pineapple for every citizen in the United States, down in Porto Rico they had a hurricane that looked to be the grandpappy of all hurricanes that were ever born. So when Florida folk begin talking hurricanes refer them to Bert Stevenson. Florida just got what Porto Rico had left over.

Mr. and Mrs. Raymond Barger and daughter Beatrice were callers in Boardman on Thursday.

Dale Carr of Fredericksburg, O., returned home with Elwood Stabelton. He will remain for the week with the latter.

Now that Thanksgiving is over you'd better check up and see if you have a ticket for the Policemen's ball. Saw an auto parked on the diamond yesterday with a ticket for the ball displayed on the windshield. And now I'm wondering if it was there as a protection against tags, a warning to other policemen that the owner had been sold or was just put there for safekeeping.

As a suggestion for Christmas why not a book, say a bank book with an interesting line or two written inside.

Expect Seal Sale To Bring Over $3000

Lawrence County Tuberculosis Society To Distribute 600,000 Seals

While almost $3,000 was raised in New Castle and Lawrence county through the sale of Tuberculosis Christmas seals last year, the Lawrence County Tuberculosis society this year is trying to better the previous record, so that sufficient money will be on hand during 1929 to carry on the work against the white plague.

Monday afternoon and Tuesday morning, 6,000 residents of New Castle and Lawrence county will receive packages containing a sheet of 100 seals and matter explanatory of their purpose. In turn, they are asked to return $1.00 to the headquarters of the Lawrence County Tuberculosis society, with headquarters at 8½ East street.

November Weather Is Above Normal

Month Is 2.4 Degrees Above Normal In Temperature; More Rain Falls

Although the month of November felt like a continuation of Indian Summer, yet the weather report for the month, made available today, shows that the average temperature for the 30 day period was but 2.4 degrees above the normal, while the rainfall was .8 inches greater than is usual for the month.

The mean maximum temperature for the month was 49.4 degrees, while the mean minimum was 35 degrees. Sunday, November 18, was the warmest day of the month, when the mercury rose to 74 degrees, and Monday, November 26, was the coldest day recorded with a temperature of 14 degrees. The total precipitation for the month was 2.98 inches, the heaviest occuring on Tuesday, November 20, when the total downpour was .83 inches. Seven inches of snow fell.

At no time during the month was the day wholly clear. Twenty-two were cloudy and eight were partly cloudy. It rained more than .01 inches 24 days during the month.

Power when your car becomes a snow plow

When you need extra power for backing out of snow bound drives, for plowing through drifts banked up at curbs or on the open road, rely upon FREEDOM Ethyl Gasoline.

This scientifically blended fuel burns with a prolonged, powerful push on your pistons which takes the strain out of winter driving. This push, rather than a sharp smash, eliminates all knocking in your motor, makes hill climbing easier, and reduces motor vibration.

Ask for FREEDOM Ethyl Gasoline *by name.* It is available throughout this district.

Weekly Review Of New York Market

By W. S. COUSINS
International News Service Financial Editor

NEW YORK, Dec. 1.—Geared up to its highest capacity, the bull market in industrial stocks rolled irresistably forward this week. Throwing caution to the winds, stock traders and speculators from all sections of the country rushed into the New York market to buy the sky-rocketing favorites which have electrified the big financial district by the ability to perform like shooting stars. With but little momentum, the high priced "richmen's stock zig-zagged with each resting place higher than the last. The big professionals and pools which are "running the market" piled in snorts of buying orders, and stocks ballooned 10, 15 and 50 points a day, and in some cases 100 points or more in the week.

Prices Climb High

Spectacular price climbs were not confined to the stock exchange. The curb market, sometimes called the "little brother" but in the last few months having smartly outgrown that title, offered as its contribution to the week's sensation flying leaps of 30 to 60 points in the speculative favorites and a daily turnover of 3,000,000 shares of stock. A year or two ago 500,000 shares, would have been considered a big day on the curb, and the Wednesday turnover of one stock, Canadian Marconi, 320,000 shares, was equivalent to a moderate day's business on the whole board.

In the outside, or unlisted market, sensational trading in bank stocks sent prices of the strong and conservative New York City bank shares sky-rocketing all the way from 50 to 120 points in a single session. National City Bank's new melon-cutting, the increase of the cash dividend of two important banks and the swallowing of the Garfield bank by the chase brought a host of speculative buying to bank stocks.

Closing Unaffected

Neither the Saturday closing nor the closing of all markets on Thanksgiving day placed any obstruction whatever in the path of the moving stock market. Putting on of the shutters permitted one more day for the accumulation of a huge volume of buying orders for speculative stocks of all kinds, and when the doors opened, facilities of the exchange were fairly swamped.

Radio's new jump to $400 a share was the feature of the week on the big board, but a score or more of the hi-priced speculative favorites, like Montgomery Ward, Sears Roebuck, Victor Talking Machine, Du Pont, Union Carbide added from 10 to 50 points to their market values during the week. Public Utility stocks forged to the front the week-end, with New York City Gas stocks jumping wildly under the spur of enormous buying demand, backed on rumors of a probable merger of the city gas and lighting properties of the Consolidated Gas company, Brooklyn Edison company, Brooklyn Union Gas company and other powerful concerns.

The big board this week presented a picture of a market run wild. Under the whip and spur of the powerful professionals, trading favorites were boosted to the loftiest heights of the year. Brokers on the floor of the exchange fought and gesticulated in an effort to keep open the avenues of the heaviest world-wide stock trading the country has ever known. Though the market is geared up to a 6,000,000 shares daily pace, the stock exchange governors are firmly convinced that the 10,000,000 share day is not far off, and are already making preparations to that end. Up they go and the sky is the limit.

N. Y. STOCKS

By W. S. COUSINS
International News Service Financial Editor

NEW YORK, Dec. 1.—Nervousness over yesterday's break in the high-priced favorites and fear of a squeeze in the money market hovered over the big board in the shot session today.

Stocks wobbled at the opening and new losses of 2 to 6 points were marked up in the first hour against U. S. Steel, Victor Talking Machine and other favorites in the last sky-rocketing move. Oil gained ground under lead of Standard of New York, while the motors moved into a lower range with Yellow Truck under fire.

Thunderings against the collapsed pool in Canadian Marconi on the curb rumbled through the air as the chairman of the board that concern in Toronto issued a new statement, saying that the rise from 3 to $27 a share in the stock was unjustified; that the par of the stock is only $1 a share, and earnings last year were 1 cent a share.

Traders raised questions about the safety of other stocks in which their good money is tied up and trading fell off in all markets. Sales in the first half hour on the big board were only 775,000 shares, against 1,300,000 shares in the same period yesterday.

Pennsylvania took the lead in the railroad stocks, snatching the spot light from New York Central. At 74½ old Penn was at the price peak of twenty years. Away back in 1908 Penn sold above 75, but in disastrous slump of 1921-22, the stock flopped to $33 a share.
